

Urban Research Program

Seminar Series 2006 – Wednesday 26th July 2006

Mee Kam Ng

The Centre of Urban Planning and Environmental Management,
The University of Hong Kong

Urban and Regional Planning Issues in the World Factory of the Pearl River, China

The Pearl River Delta has grown rapidly resulting in the introduction of two urban system plans to cope with the effects of this growth. These highlight China's evolving and maturing approaches to urban system planning.

Dr Mee Kam Ng is associate professor at the University of Hong Kong, with a focus on Urban and Regional Development and Planning in Pacific Asia.

12.00 noon, Wednesday 26th July 2006
Planning Studio 1.14, Building N55, Nathan Campus
Griffith University
