

# Urban Research Program

Wednesday 22<sup>nd</sup> August 2007

12.15 p.m. – 1.15 p.m. Room N55 1.14

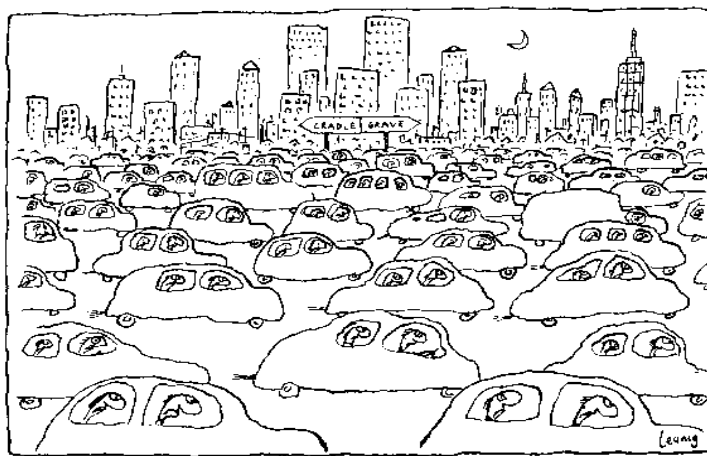

**Wendy Steele (PhD candidate)**

## Crafting the Planning Vision

directions in theory and method in North America and Europe

This seminar reports key themes from a recent planning workshop held in Vancouver and from the July 2007 conference of the Association of European Schools of Planning (Naples).

Wendy Steele reviews the work of John Friedman, Leonie Sandercock and Patsy Healey; the revival of pragmatism, the work of Deleuze and Guattari, visual literacy in planning and the rise of digital ethnographies.
