

Urban Research Program

Seminar Series 2006 – Wednesday 9th August 2006

Saleem Ali

Rubenstein School of Environment and Natural Resources
University of Vermont

Environmental Conflicts over Nickel Mining in New Caledonia

The environmental costs as well as the distribution of the economic benefits resulting from nickel mining are the subjects of increasing conflict between social and cultural groups in the territory.

Dr Saleem Ali is Associate Professor of Environmental Policy and Planning. His research focuses on the causes and consequences of environmental conflicts and how ecological factors can promote peace. Dr. Ali is also a member of the expert advisory group on environmental conflicts for the United Nations Environment Programme.

12.00 noon- 1pm, Wednesday 9th August 2006
Planning Studio 1.12, Building N55, Nathan Campus
Griffith University

RSVP no later than Friday 4th August 2006 to:
