

Video Transcript – Getting Connected with People

1st Student

Opening up, saying g'day to people, you know, take the initiative when you're at a new lecture or tutorial or even just walking to class, just say g'day, this is who I am and people will say g'day and that way you can build on a great peer group really early on.

2nd Student

It was hard to live by myself because I was living with my family before I came to Australia.

3rd Student

All of us we are in the same situation we don't have our family here so our friends become our family.

4th Student

I haven't really stayed in contact with many of my school friends as I've got more friends here and just everyone's gone their own way, some people are working, some people are at uni.

5th Student

You have to work with people and you have to find friends, because you have to get the motivation together and if you work together, you complete things quicker... definitely.
