Speaker: I decided to study Japanese because I’ve been learning it since primary school. It is the one thing I found that I really enjoy. When I saw the structure of the degree, I thought this seems like the best fit for me. The main highlights of studying at Griffith are expanding on my Japanese language as well as learning the science behind language and how we use it to interact with each other on a daily basis. I’ve really enjoyed the lecturers. They respect the students and they present the learning material in an interesting way, that every student—to learn in the best way that they can.
