Visiting CSIRO at the Ecosciences Precinct, Dutton Park

The EcoSciences Precinct (ESP) is conveniently located 100m from the Boggo Road Busway and Park Road Railway Station. There is a walkway from these public transport hubs to the EcoSciences Precinct. Up-to-date bus and train timetables can be found at www.translink.com.au or by calling 13 12 30. Bus Numbers 109, 169 and 209 stop at the Boggo Road Busway. The Gold Coast/Airport, Beenleigh/Ferny Grove and Cleveland lines all stop at the Park Road Railway Station. If you have been provided with visitor parking, please drive to Joe Baker Street and enter at gate B2. You will need to speak to security at the intercom to announce yourself and you will then be provided with the number of the parking bay allocated to you. Once parked, exit through the door beside the entry gate and make your way to the main entrance.

Please note the ESP is an operational 24/7 science research precinct and all visitors must be signed in. Upon arrival at the EcoSciences Precinct, you will be required to report to the front security desk where they will sign you in as a visitor. You will need to wear the visitor badge whilst onsite and return it at the end of each day to security.

Please find a map of the EcoSciences Precinct overleaf, with key locations clearly marked. Should you require further assistance, please don’t hesitate to contact us.
