A word from the Discipline Head, Urban and Environmental Planning, Griffith School of Environment

This is the 12th edition of the Graduate Profiles booklet. It presents graduates from our undergraduate program that completed their degree requirements in 2009. With these new graduates, the number of Griffith University urban and environmental planning graduates now totals more than 330.

In addition to presenting our recent graduates, I would like to update you with news from Griffith planning in 2009. Students, staff, graduates and past graduates were very successful at the 2009 Queensland PIA Awards for Planning Excellence. The Urban Research Program (Associate Professor Darryl Low Choy) received the Award for Excellence for Planning Scholarship, Research and Teaching and was the Overall Winner Award for Excellence for “identifying and incorporating indigenous landscape values into regional planning process”. The 2009 National Young Planner of the Year Award was awarded to Kristy Albrecht (a 2003 Griffith graduate). Ben Cebuliak won the Minister’s Town Planning Prize for his honours thesis on “How far does Brisbane walk to the bus?: The influences of pedestrian travel distances to neighbourhood bus stops in Brisbane”.

Finally, Dr Eddo Coiacetto received an Australian Learning and Teaching Council award for Outstanding Contribution to Student Learning for preparing astute, resilient and values-driven planners for the challenges of making a better world.

In closing I would like to say that I, along with all staff, am proud of these graduates and I wish them well in their new careers as professional planners.

Associate Professor Neil Sipe

You can now search online for Urban and Environmental Planning Graduates. Visit griffith.edu.au/graduate-profiles
Professor Lex Brown
Lex’s research interests in environmental planning include Environmental Impact Assessment of projects and Strategic Environmental Assessment of policy and plans; transportation; environmental management tools; and environmental noise. Current research projects include integrating environmental modelling with transport modelling; urban accessibility; linkages between environmental management tools; and soundscape design. Lex has worked on many international projects, including collaborating with the United Nations Development Program and the Government of The Netherlands on environmental appraisal of international development.

Dr Matt Burke
Research Fellow, Urban Research Program
Matt is a transport and land use planner with a keen focus on non-motorised travel and public transport. His research interests include travel behaviour research; transport planning and policy; physical activity and health; accessibility analysis; land use planning; urban geography; religious geography; gated communities; Asian cities; and, environment-behaviour research methodologies. Matt’s current research is on active travel and accessibility, and he is commencing an investigation into child travel behaviour and outdoor play.

Professor Paul Burton
Chair of Urban Management and Planning, Gold Coast and Deputy Director, Urban Research Program
Paul was previously Head of the School for Policy Studies at the University of Bristol, UK. His research interests include urban governance (leadership in local government, local regulation of behavioural adaptations to climate change), public participation in planning (evaluating the costs and benefits of various forms of participation) and in spaces for democracy (the significance of interior and exterior design on the everyday practices of democracy).

Dr Jason Byrne
Senior Lecturer
Jason’s research interests focus on nature-society-health relations in the city, including urban political ecology, environmental justice, sustainable cities, racialised landscapes and (in)sublurbs urban environments. Jason also has research interests in planning theory, planning practice and policy development. He favours mixed methods research.

Dr Eddo Coiacetto
Senior Lecturer
Eddo’s research and academic interests are in real estate development and planning; urbanisation; public land development; sustainability and real estate development; wetland management; cross cultural studies; urban history; and planning practice and work-based learning.

Professor Pat Dale
For over 20 years Pat’s research has focused on wetlands and mosquitoes and the diseases they transmit. She is part of the team which developed the funneling method of salt marsh mosquito control in the mid 1980s, a method unique to Australia. The project resulted in Pat’s long-term monitoring of small impacts and her developing interest in environmental law. She is an expertise on mosquito management to local governments, mainly in South East Queensland. Her current interests include land management for biting insect control.

Dr Aysin Dedekorkut
Senior Lecturer
Aysin has over ten years of experience researching and teaching planning in the United States and Turkey. Her research interests include decision making processes, specifically collaborative planning, consensus building, and alternative dispute resolution; environmental planning and natural resource management with particular focus on water resources management; regional planning and natural resource management linkage, and growth management. Recent research projects include intergovernmental collaboration for long range transportation planning in the United States and growth management in Southeast Queensland and Florida.

Dr Jago Dodson
Research Fellow, Urban Research Program
Jago’s research interests include social housing and housing markets; social dimensions of transport planning; urban governance and policy making; urban-health relationships; and urban economies and labour markets.

Professor Brendan Gleeson
Director, Urban Research Program
Brendan’s research interests focus on planning and urban governance; the political economy of planning; social policy and the city; the geography of disability; public land development; environmental policy and theory; and transport and urban governance.

Associate Professor Darryl Low Choy
Senior Lecturer
Darryl’s research interests and areas of special expertise include environmental planning and management; cooperative regional planning and management; catchment management; community-based planning at catchment and regional scales; regional landscape and open space planning; island environmental management; ecotourism and recreation planning; environmental impact assessment; growth planning in developing regions; rural planning; and the relationship between science and planning.

Dr Diana MacCallum
Lecturer
Diana gained her PhD from Curtin University in 2007, for her thesis on discourse and decision making in participatory planning committee. Her general research interests include governance and political practices, grass-roots action, planning theory and praxis. She also has an interest in qualitative research methodologies; her own work uses critical discourse analysis and ethnographic observation.

Associate Professor Geoff Woolcock
Honours Convenor
Geoffrey is an urban sociologist based at Griffith University and is particularly interested in both indicators of social sustainability and the factors that contribute to child- and youth-friendly communities. His work with large-scale public and private sector organisations, including large private residential developers and several Queensland and interstate government departments, concentrates on developing measures of communities’ strengths alongside national and international efforts to measure well-being led by the Organisation for Economic Cooperation and Development (OECD).

Ms Wendy Steele
Lecturer
Wendy’s research interests include an emphasis on: planning theory and practice, planning reform processes; urban policy and governance; the social and institutional dimensions of climate change; and the possibilities for creating child-friendly cities and communities.

Dr Deanna Tomerini
Lecturer
Deanna graduated from the School of Australian Environmental Studies in 1997. She has been involved in a variety of teaching and research tasks at Griffith University since 1995. Deanna’s current teaching responsibilities include Environmental Assessment and Environmental Noise. She also has expertise in Geographic Information Systems (GIS) and is interested in the application of GIS in environmental planning, particularly in relation to health issues and environmental pollution. Recent research projects have included an investigation of the impacts of local government mosquito control programs on Ross River virus disease rates in Queensland, Australia.

Associate Professor Neil Sipe
Discipline Head
Neil’s research and academic interests are focused on the influence of land use and urban form on travel behaviour, the use of geographic information systems to manage and control mosquitoes; the role of corner stores in neighbourhood sustainability; the role of mediation in resolving environmental and public policy disputes; and the challenges in implementing performance (or results) based planning.
Academic performance
New graduates generally do not have a body of work experience to fall back on and as such their academic performance is an important indicator of how they are likely to perform in the workplace.
Kerry Doss, Acting Manager, City Planning Branch, Brisbane City Council

Work experience
As an employer I value the opportunity to engage graduates with quality degrees such as those offered by Griffith University coupled with relevant practical work experience.
Warren Rowe, Director Planning Environment & Transport
Gold Coast City Council

Career goals
Good environmental planning businesses operate with one eye constantly on the future. Our best employees plan their careers just as carefully.
Chris Buckley, Director, Buckley Vann Town Planning Consultants

Simon Chap
Bachelor of Urban and Environmental Planning with Honours
Nathan campus
Phone: 07 3821 0304

Griffith University
Phone: 07 5552 7721
c.bosman@griffith.edu.au

Academic performance
- Honours Research Project, ‘Retro-fitting Residential Dwellings to Reduce Energy and Water Consumption and Achieve Sustainability: A case study of two dwellings in Nerang, QLD’
- Planning Institute of Australia Award- Best First and Second Year Performance in 2006 and 2007.
- Griffith School of Environment Head of School Commendation for High Achievement (2007, 2008)
- IRU-EU Scholarship for Environment Students

Key work experience
- Griffith University (2008): Tutor in Development Processes Studio and Environmental Assessment and Management
- Seqwater (2008): Student Environmental Planner

Professional development and recognition
- Member, Planning and Environment Griffith Students
- Member, Queensland Young Planners
- Student member, Planning Institute of Australia
- Student member, Urban Design Alliance

Core skills
- Strong written and communication skills
- Excellent time management

Personal best
Completed my honours thesis and presented my research findings at the 2nd International Urban Design Conference 2009.

Cassie Craddock

Bachelor of Urban and Environmental Planning/ Bachelor of Science (Environment)
Nathan campus
Phone: 07 3462 9033
Mobile: 0432 799 669
cassie_craddock@hotmail.com

Career Goals
To gain experience in a range of challenging and rewarding planning projects which will enable me to integrate and utilise both the planning and environmental science elements of my double degree.

Referee
Amanda Clark
Senior Advisor Land Use Planning
Planning Policy and Legislation
Queensland Transport
Brisbane QLD 4001
Phone: 07 3146 1704
amanda.f.clark@transport.qld.gov.au

Academic performance
- High Distinction in Environmental Assessment
- Head of School Commendation for High Achievement

Key work experience
- Queensland Transport – Planning Policy and Legislation Division: January to March 2009; Researcher (active transport, car parking code, planning schemes and travel plans)
- Bennett & Bennett Town Planners and Surveyors: vocational work Nov 2006 to Feb 2008; assisting in the preparation of Development Applications, property enquiries, photocopying, collating and binding
- Coles – Casual Service Assistant: 4 years; Night-fill

Professional development and recognition
- Student Member, Planning Institute of Australia

Core skills
- Working knowledge of numerous Qld planning schemes
- Proficient in various software applications, including Microsoft Office programs, GIS, SAS, and PRIMER
- Ability to work independently and in a team environment
- Excellent time management and organisational skills

Personal best
Consistently improving my results throughout my 5 year full time degree while concurrently balancing a part time retail job.
Nicole Dance

Bachelor of Urban and Environmental Planning
Nathan campus
Ipswich QLD 4305
Phone: 07 5464 5499
Mobile: 0413 976 327
ndance15@gmail.com

Career Goals
My professional aspirations are to pursue my interests in strategic and land use planning. I also wish to broaden my knowledge and undertake further studies in regional development and urban design.

Mr Garth Moore
Strategic Planning Manager
Ipswich City Council
PO Box 191
Ipswich, 4305
Phone: 07 3810 6251
gmoore@ipswich.qld.gov.au

Academic performance
During my academic career I have maintained consistent above average grades and have received a University Award for Academic Excellence for my results during Semester 1, 2008.

Key work experience
Ipswich City Council (2009 - current)
• Customer Service Officer (Planning and Development Department)
Ipswich City Council (2008 - 2009)
• Student Planner (Strategic Planning Branch)

Professional development and recognition
• Member, Griffith University Environmental Planning Society
• Student member, Planning Institute of Australia
• Ipswich Representative for Queensland Young Planners Group (QYPG)
• Seminar at PIA – Build Your Career 2009

Core skills
• Well developed written and oral communication skills and research skills
• Ability to work effectively in both team and individual situations
• Computer literate in various programs including: Office, Mapinfo, Pathways, Dataworks, and Vectorworks

Personal best
Implementing a 3D graphic program into the Strategic Planning Branch at Ipswich City Council, and speaking at the PIA – Build Your Career 2009 Seminar regarding 3D modelling and the Ipswich Population Modeller.

Dylan Falconer

Bachelor of Urban and Environmental Planning
Nathan campus
Fortitude Valley QLD 4006
Phone: 07 5449 1259
Mobile: 0403 375 584

Career Goals
I am eager to gain employment with an employer which will allow me to:
• utilize the skills and knowledge gained thus far in my career;
• build upon the theories and concepts of university; and
• get out of the office and involved at a hands on level.

Referee
Scot Ian Douglas Brown
Managing Director

Fortitude Valley QLD 4006
Phone: 07 3852 2211
scotb@cityplanqld.com.au

Academic performance
Throughout my tertiary education I have successfully completed a wide array of subjects, covering a broad spectrum of topics. The final two years of my degree have seen a vast improvement in my academic results. You will notice the correlation between this improvement and gaining employment in the planning profession, indicating my enthusiasm for the furthering of my career.

Key work experience
February 2008 to current: City Plan Services Queensland - Assistant Urban Planner on a part time basis. Responsibilities and exposure include:
• Preparation of Development Applications across Queensland
• Project manage a range of Code and Impact Assessable Development Applications
• Sub-consultant administration and
• Strategic planning experience on State Government projects

Professional development and recognition
• Member, Planning Institute of Australia
• Member, Queensland Environmental Law Association
• Member, Queensland Young Planners

Core skills
• Sound abilities in the use of Microsoft Office
• Practical skills in the use of GIS programs
• Confident in the use of Corel Draw

Personal best
Investigative, research, problem solving and planning skills, acquired through my studies are evident in my quest for new and challenging experiences.
Alisha Ferguson

Bachelor of Urban and Environmental Planning
Nathan campus
Mobile: 0438 253 686
alishaf@live.com.au

Career Goals
I strive to continuously develop my knowledge and understanding of planning and environmental issues. Within my future employment, I aim to work with private industry, community and government to achieve sustainable, equitable and prosperous communities in Australia. I also plan to further my knowledge through postgraduate studies.

stewart.somers@toowoombaRC.qld.gov.au

- Academic performance
  - I have consistently achieved excellent results in all subject areas throughout my degree
  - I excelled in sustainable development, strategic planning studio and transport planning

- Key work experience
  - ASPECT Studios - Urban Planner
  - Organising Proposals and Tenders
  - Preparation of Planning Reports
  - Subdivision Layout and Design
  - The Certification Professionals - Town Planner
  - Preparation of Fee Proposals
  - Undertaking of Site Visits
  - Liaison with clients and Council

- Professional development and recognition
  - Member, Planning & Environmental Griffith Students
  - Student member, Planning Institute of Australia

- Core skills
  - Communication – Strong written and verbal communication abilities
  - Planning Knowledge – Extensive knowledge and understanding of planning legislation and terminology
  - Dispute Resolution – Strong conflict resolution, negotiation and problem solving skills
  - Work Ethic – Able to work independently or as part of a team
  - Technical Skills – Competence in various software programs

- Personal best
  - Selected as the Griffith University representative for the Australian student visit to Hong Kong University (2009)

- Academic performance
  I have maintained a high standard of marks across all subjects and have received Distinctions in Remote Sensing, Planning Systems and Real Estate and Property Development subjects.
- Key work experience
  - Student Town Planner – ENERGEX Limited (September 2008 – present)
  - Referral Agency Officer
  - Development Application for Electricity Substation (Material Change of Use) and Access Easement (Reconfiguration of Lot) located in Scenic Rim Regional Council
  - Coordinate Public Notification (Transmission Line)
- Professional development and recognition
  - Co-Founder, Town Planning Crew
  - Student Member, Planning Institute of Australia.
  - Member, Queensland Environmental Law Association
  - Student Member, Urban and Environmental Planning Professional Advisory Board, Griffith School of Environment
- Core skills
  - Working knowledge of key Federal and State legislation that guide planning in Queensland
  - Familiarity with South East Queensland Local Government’s planning schemes
- Personal best
  To have worked within a small group to produce ‘Climate Solutions for a Growing Region’ and to receive a Tertiary Merit Award in the Queensland Planning Institute of Australia Planning Awards in 2008.

Academic performance
I have obtained good grades throughout my degree, achieving distinctions in Earth Sciences, Sustainable Development, Understanding Environmental Issues, Research Methods for Social Science, Geographic Information Systems and Planning Practicum and high distinction in Planning Systems.

Key work experience
- Hong Kong Open University School of Science and Technology – Research Trainee
- Roles/asks: Preliminary research of water pollution in Guangdong Province in China and general meeting with Greenpeace China

Professional development and recognition
- Member, Griffith University Environmental Planning Society
- Student member, Planning Institute of Australia

Core skills
- Ability to work effectively both in a team and independently
- Well developed analytical, problem solving and research skills
- Strong written and oral communication skills

Personal best
I managed to complete my degree achieving good grades as an international student from a non-English speaking background.

Jess Lisle

Ms Sonia Kirby
Principal Planner
Tract Consultants Brisbane
Phone: 07 3735 7103
skirby@tract.net.au

Academic performance
- Honours Research Project, ‘An investigation into how urban open space can provide opportunities for climate change adaptation in South East Queensland’
- I have consistently maintained a high standard of results

Key work experience
- Tract (2008 - present): Student planner, key duties include research and report writing for both statutory and strategic planning jobs
- Brisbane City Council and Griffith Industry Mentor Program (2007): Developed an understanding of Council urban planning in particular public transport, water, urban sprawl

Professional development and recognition
- Planning Institute of Australia Merit Award (Qld Division) - Tertiary Students 2008
- Member Golden Key International Honour Society 2008/09
- Finalist in Griffith University Innovation Challenge 2009

Core skills
- Co-operative team member and leader, willing and able to take initiative
- Excellent skills in research, analytical and critical thinking, written and oral communication and time management
- Highly competent with computer mapping, design and formatting programs

Personal best
In 2008 I won a scholarship funded by the EU to study at BOKU University in Vienna, Austria. During my six months there, I broadened my perception of environmental issues and a global perspective.

Jason.byrne@griffith.edu.au

Academic performance
- Griffith University Award for Academic Excellence 2007, 2008, 2009
- Acceptance into Honours Stream
- Consistent high academic performance
- Awarded a Griffith University Scholarship to take part in an Environmental Education Student Exchange Program

Key work experience
- Storey and Castle Planning P/L – Assistant town Planner (February 2009 – present)
  - Preparation and writing of Development Applications
  - Planning and development advice
  - Working knowledge of Qld planning legislation, codes and development guidelines
  - Communication and liaison with clients and other relevant third parties

Professional development and recognition
- Member, Griffith University Environmental Planning Society

Core skills
- Independent research and analysis skills
- Excellent written and verbal communication skills
- Preparation and management of town Planning Development Applications
- Interpretation and comprehensive understanding of planning legislation and policy

Personal best
Received a 1st class honours for my research project entitled, ‘A Road less Travelled: The Health Promoting Aspects of Informal Greenway Trails’.
Lane McMillan
Bachelor of Urban and Environmental Planning
Gold Coast campus
Gold Coast QLD 4218
Phone: 07 5575 4277
Mobile: 042 886 2884
lane.mcmillan@bigpond.com
Career Goals
I am extremely passionate about the environment, sustainable development, entrepreneurism and social return on investment. Maintain my lifelong learning outlook within an organisation that is navigating change.
Referee
Dr Caryl Bosman
Urban & Environmental Planning
Griffith School of Environment
Griffith University
Phone: 07 555 27721
c.bosman@griffith.edu.au

Academic performance
- Being a mature age student I have consistently achieved above average results in planning and business related courses throughout my degree

Key work experience
- Parks and Recreation Gold Coast City Council, calculation of council maintenance cost for hand over projects
- Sustainable Planning Gold Coast City Council, community programs, data analysis, calculation and reporting of carbon footprint
- 5 years employment in wine sales, customer relations, ordering, event organisation, averaging 30 hours a week

Professional development and recognition
- BA Communications Charles Sturt University
- President and founder of Planning and Environmental Griffith Students Gold Coast
- Founding partner and company secretary of a bond development company

Core skills
- Interpersonal communication
- Highly creative in design and solutions to problems
- Highly developed research and analytical skills
- Ability to successfully work within and lead a team

Personal best
Self motivated to research and investigate topics which fall outside of the structured curriculum. This enables me to gain a big picture perspective on the economic, environmental, and social change we are all facing today.

Career Goals
To have a successful career as an Urban Planner without compromising my beliefs about how important sustainable planning is for regional growth and community development.

Referees
Wes Mortenson
Coordinator Parks and Recreation Planning
Moreton Bay Regional Council
Phone: 07 3480 6521

Ms Amanda Dryden
Manager Development Services
Moreton Bay Regional Council
Phone: 07 5433 2267

Academic performance
Achieving Distinction in Advanced Planning Law, Planning Practicum and Sports Facility Planning Semester 1, 2009 while working with the Moreton Bay Regional Council as part of Development Assessment

Key work experience
- Strategic and Statutory Planning as a Technical Officer for Parks and Recreation Planning: South Moreton Bay Regional Council
- Aligning the Development Assessment Conditions for the previous Pine, Caboolture and Redcliffe City Councils as part of the newly amalgamated Moreton Bay Regional Council: Development Assessment North

Professional development and recognition
- Member, Griffith University Environmental Planning Society

Core skills
- Recognition of Sustainable Planning Principles
- Park Land Management Plans
- Park and Recreation Master Planning
- Development Assessment
- Project Coordinator

Personal best
Manager’s practicum report stating that the complex project I was given of managing diverse groups of professionals ‘many qualified and more experienced people would have struggled to achieve the results he has’.

Ben Mountcastle

Bachelor of Urban and Environmental Planning
Nathan campus
Mobile: 0432 229 359
ben.mountcastle@gmail.com

Career Goals
To gain experience in a range of challenging and rewarding positions that will lead to the development of my professional and technical skills. I am particularly interested in sustainable development, transport planning, development processes and urban design.

Referee
