“My favourite thing about living in Brisbane is definitely the people and the location. The city doesn’t feel overcrowded or stressful, but at the same time there is always something to do, which makes it a really nice balance. What I especially love is how easy it is to experience so many different things. You can go to the beach at the Gold Coast, spend time in nature or just explore the city itself. It never gets boring, because there are so many options and everything feels quite accessible.”

WHERE TO LIVE

Whether you would like to live on campus or off campus, there are several options you can explore to find housing to suit your needs. Options include homestay, which allows you to experience life with a local family while you study.

Temporary and short-stay accommodation

If you are intending to organise long-term off-campus accommodation once you arrive in Queensland, it is important that you also find temporary accommodation for your first few days or weeks in the state. This will give you time to inspect your long-term off-campus accommodation before you move in. There are short-term accommodation options located near each of our campuses that are easily accessible by public transport.

Off campus

Share house

In Australia, share housing—where you share a house or apartment with a number of other students—is the most common form of off-campus accommodation.

When looking for suitable off-campus accommodation, you will need to consider:

- the cost of rent (usually advertised as a weekly amount)
- if utilities are included in your rent (electricity, water, gas)
- if internet is included in your rent
- if the accommodation is furnished
- how close the accommodation is to your campus
- access to public transport.

Off-campus student accommodation

There are a number of purpose-built student accommodation providers. You should review their offerings in relation to your needs and contact them directly for more information.

Homestay accommodation

Homestay accommodation gives you the opportunity to live with an Australian family while you study. It is a great way to develop your English language skills and experience life in Australia, and offers catered and self-catered options. Homestay is available to students at all Griffith campuses.

The Australian Homestay Network provides homestay accommodation for Griffith students.

You can find additional resources for accommodation options on the Gold Coast here: experiencegoldcoast.com/study/live/student-accommodation

On campus

Griffith offers self-catered accommodation at Brisbane South (Nathan) and partners with Campus Living Villages to provide self-catered, on-campus accommodation in the Griffith University Village on the Gold Coast.

Living on campus is a fantastic way to meet new people, find out about new cultures and develop independence. On-campus accommodation is fully furnished and provides access to cooking facilities, laundry facilities, common rooms and internet, as well as offering a vibrant social life.

Airport pickup

International students commencing at Griffith University can apply for a free airport pickup, which takes you from the airport directly to your pre-arranged accommodation. The service is free for eligible new international students arriving at the Brisbane or Gold Coast airports.

Cost of living

There are many different costs involved in international study and your cost of living in Australia will vary depending on your lifestyle and personal requirements.

The Australian Government requires students to have access to a minimum of A\$29,710* per year to meet their living costs, but most students spend more than this. Costs will be higher if you have family members accompanying you.

* As at February 2026.

Calculating your total cost of study

Your total cost of studying in Australia will include:

- tuition fees
- visa application fees
- Overseas Student Health Cover (OSHC)
- flights
- cost of living
- other personal and study-related expenses.

Tuition fees

Tuition fees are reviewed annually, and international students should expect an increase in fees each year. Detailed information on the fees relevant for your degree, including the fees applicable in your commencing trimester, is available at degrees.griffith.edu.au
