

Griffith Service Manager (GSM) Thick client installation guide

Download GSM installer

The Griffith Service Manager (GSM) installer file can be downloaded directly from the Cherwell website.

- 1. Ensure you have an internet connection
- 2. Using any web browser navigate to the **Cherwell Auto-Deployment** website: <u>http://griffith.cherwellondemand.com/cherwellautodeploy/</u>
- 3. Click on the Cherwell Service Management link
- If prompted save AutoDeployDownloader.exe installer file to a location on your hard drive
- 5. If the file auto downloads this will be saved to your default downloads folder

Installing the GSM installer file

- 1. Locate the **AutoDeployDownloader.exe** installer file on your hard drive > double click to install the file > click **Run**
- 2. The **Operation in Progress** window will appear, wait for the download to complete

	The InstallShield Wizard has successfully installed Cherwell Client. Click Finish to exit the wizard.
	< Back Finish Cancel

 The GSM thick client will now be installed on your computer NOTE: If prompted to upgrade the client, accept the request

Log into GSM

- 1. Go to START > Cherwell Service Manager
- 2. Enter your sNumber and password at the Griffith Single Sign On window > click login > you will now be logged into your default Dashboard

Add another GSM Connection

After following the instructions above to download and install the Cherwell client you can add additional connections to connect to other GSM environments, e.g. GSM Test and Production.

1. Open the 'Connection to Cherwell Service Management' window.

Option 1:

- Hold down the Ctrl + Shift keys simultaneously then double click the blue Cherwell icon.
- The connection window will appear.

Option 2:

- Login to the GSM environment you have access to.
- Then select File > Logout > Change connection.
- The connection window will appear.

Connection Window

- 2. Select Add
- 3. Click Next

4. Click Next in the Connection Type window
