

INFORMATION SHEET – THIS SHEET DOES NOT FORM PART OF THE AGREEMENT

Overview - The primary aims of the HDR Internship are to develop the Candidate's transferable and professional skills, build industry contacts and prepare for future employment. A HDR Internship should:

- enable the Candidate to apply their knowledge and research capabilities gained from their program in a workplace setting;
- allow the Candidate to develop their transferable and professional skills;
- provide an opportunity for the Candidate to explore career options or make more informed decisions on their career development; and
- increase the Candidate's employability skills.

HDR Candidates are required to submit Assessment Items to the University to demonstrate their achievement of the project and learning outcomes. This needs to be accommodated in intellectual property arrangements and confidentiality restrictions.

As the Internship contributes towards a qualification for which the Candidate may have to pay tuition fees, the Host should provide fair warning to both the Candidate and the Principal Supervisor of circumstances which could lead to the termination of the Internship.

UNIVERSITY INSURANCE COVER - EXPLANATION

Public Liability – The University's General and Products Liability Insurance Policy (generally referred to as "public liability insurance") covers all students of the University (including enrolled HDR Candidates) in situations where students are undertaking unpaid activities required by the university as part of their program of study, or approved by the University as of benefit to the students in their study.

Students are indemnified by that policy for any property damage (excluding motor vehicles) or personal injury suffered by a third party which is caused by the student in the course of an approved unpaid work experience activity, and for which the student would be legally liable.

The University's General and Products Liability Insurance Policy applies irrespective of whether the activities are conducted on a University site or elsewhere, provided the activities are officially sanctioned.

Personal injury suffered by the student - The University's Personal Accident Policy extends to all students of the University where the students are undertaking approved unpaid Work Experience / WIL Activity within Australia. Some limits apply under this policy. In some States, the Host may also be required to cover students under its insurance policies..

Professional Indemnity and Medical Malpractice Insurance - a student undertaking unpaid activities required by the University as part of their program of study, or approved by the University as of benefit to the student in their study, is covered by Professional Indemnity and Medical Malpractice Insurance for up to \$10 million worldwide with limitations in the USA/Canada.

Any incident that requires attention of the University's insurers, should be notified directly to the University's Manager, Insurance by phone:
