Mawang (Together)

This piece follows the story of salt water mob, desert mob and freshwater/bush mob coming together for ceremony & to speak up for our ancestors past and future. Our journeys of healing country along the way. This piece was a collaboration between myself (desert girl) my dear friends Tayla (salt water mob), Nikki-Rose (salt water and bush mob) and our uncle Chris (bush & salt water mob). We all work hard in advocating for our community. In a way this is our story as much as it is the story of country. We used different colours to show mob comes in all shades. We also painted white dots around the tracks of our dreamings/totem animals to show our own ancestors walking beside us.
