E) RESPONSE TO COMMITTEE QUESTIONS	33
F) INTERNAL INVESTIGATOR / HEAD OF SCHOOL REVIEW OF ETHICS APPLICATION.....	36
Reviewing an application	37

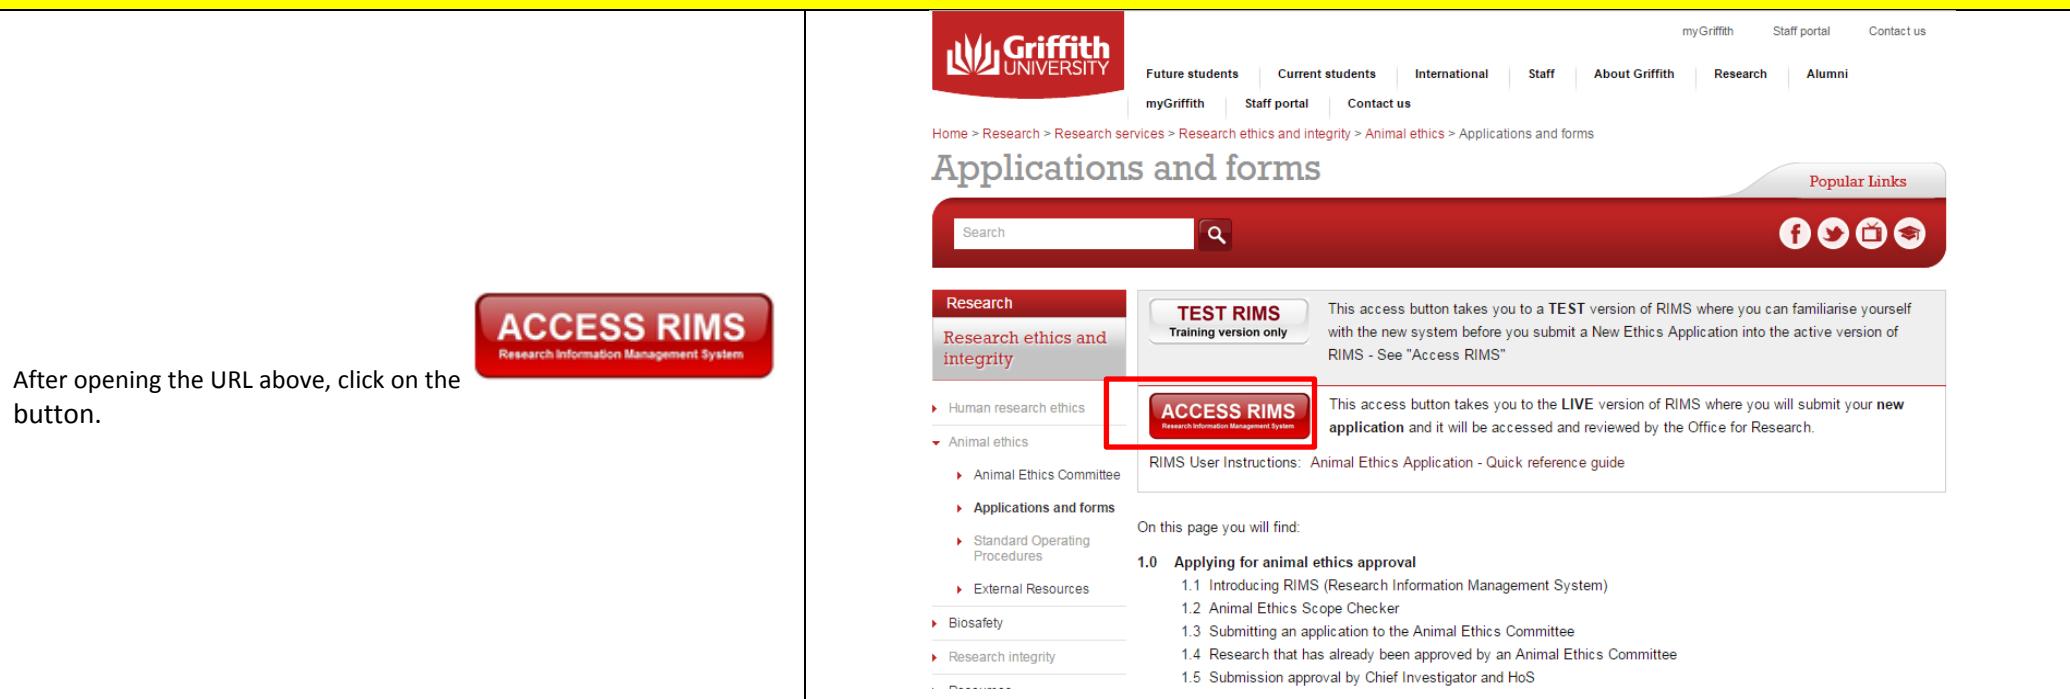

The Griffith University Animal Research Ethics Review process is web based. This means that academic staff complete the '*Animal Ethics Committee Application*' by logging onto the Griffith Portal, and electronically submitting the completed application to the Office for Research. This document explains how to enter data and submit the application.

A Microsoft Word version of the questions that are part of the application process can be accessed at <https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms> to assist you with preparing your submission. Please note, all submissions must be lodged via RIMS.

The '*Animal Ethics Committee Application*' is made up of five (5) Tabs: Coversheet, Questionnaire, Animal Usage, Documents and Status History. Within the 'Questionnaire Tab' each question is presented in turn and only those questions that relate to previous answers will be presented. The same questionnaire may result in one researcher answering many questions and another only a few. The information gathered in these tabs will allow the Animal Ethics Committee to assess your application.

You may be advised by the system that animal ethics approval is not required (**Outside of Scope**). If this is the case, you do not need to proceed with completing an application. Please contact animal-ethics@griffith.edu.au if you require further clarification regarding your proposed project or if you would like to request an exemption notification.

1.0 Access to RIMS is via the Animal Ethics Website: <https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms>

After opening the URL above, click on the **ACCESS RIMS** button.

The screenshot shows the Griffith University Research Ethics website. At the top, there is a red banner with the text 'ACCESS RIMS' and 'Research Information Management System'. Below the banner, the Griffith University logo is displayed. The main navigation menu includes links for Future students, Current students, International, Staff, About Griffith, Research, and Alumni. A 'Popular Links' section features icons for Facebook, Twitter, YouTube, and a graduation cap. The main content area is titled 'Applications and forms' and contains a search bar. On the left, a sidebar lists categories such as Research, Research ethics and integrity, Human research ethics, Animal ethics, Animal Ethics Committee, Applications and forms, Standard Operating Procedures, External Resources, Biosafety, and Research integrity. Two large buttons are present: 'TEST RIMS' (Training version only) and 'ACCESS RIMS' (Research Information Management System). The 'ACCESS RIMS' button is highlighted with a red box. To the right of the buttons, text explains the purpose of each: the TEST RIMS button leads to a test version of the system, while the ACCESS RIMS button leads to the live version where new applications can be submitted. A link to 'RIMS User Instructions: Animal Ethics Application - Quick reference guide' is also provided. A sidebar on the right lists 'On this page you will find:' followed by a numbered list of topics related to the application process.

1.1 Logging in for the first time? Don't have a IRMA/RIMS account?

If you see this screen you will need to enter your 's' number (without the 's') in the field at "Griffith University Username" and press the 'Submit' button.

This will automatically create your IRMA / RIMS account.

 Griffith UNIVERSITY IRMA Production @ Griffith

Your staff number in SSO is _____ but you don't have an IRMA account. Please enter your network username and click Submit to create an IRMA account, alternatively please contact the Research Office and they will create an account for you.

Griffith University Username:

| Disclaimer | Privacy | CRICOS Provider - 00233E

This screen may come up also, click on "Please click this link to login" under the padlock.

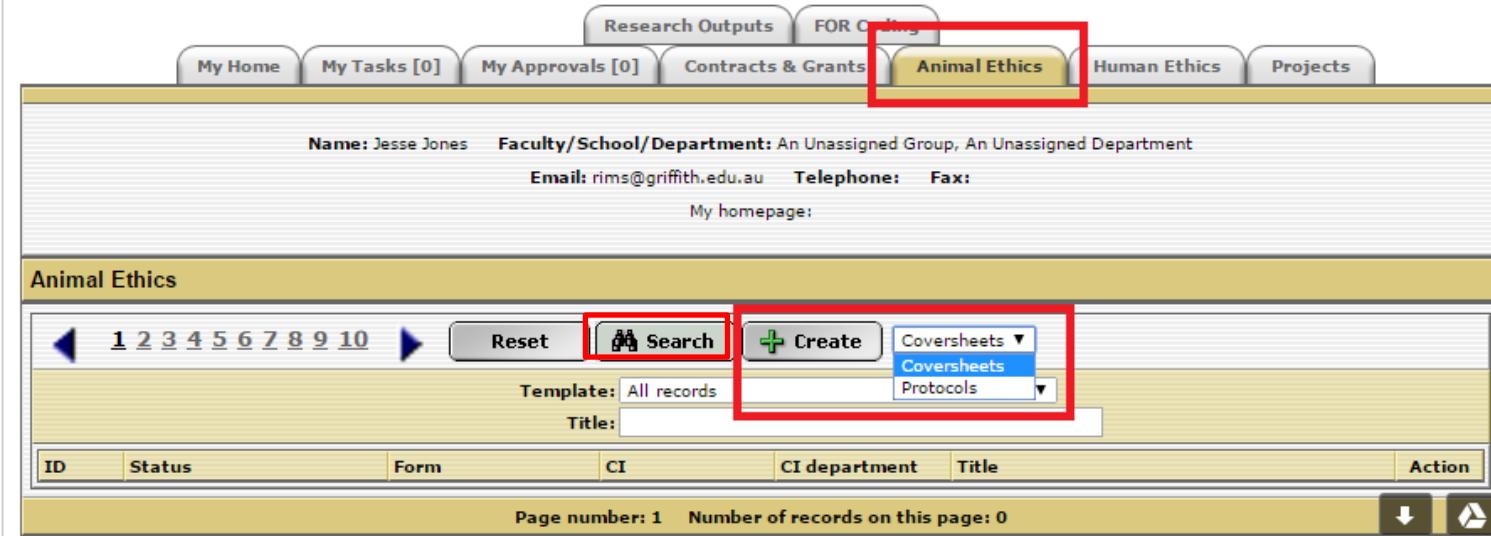

To access the Animal Ethics module select the '**Animal Ethics**' Tab from the '**Researcher Profile**' landing page in RIMS

A) NEW APPLICATION

Begin an application by selecting 'Coversheets' in the in the Picklist and clicking on the  button.

Regardless of whether you are submitting a new application, a variation or a report these all start the same way.

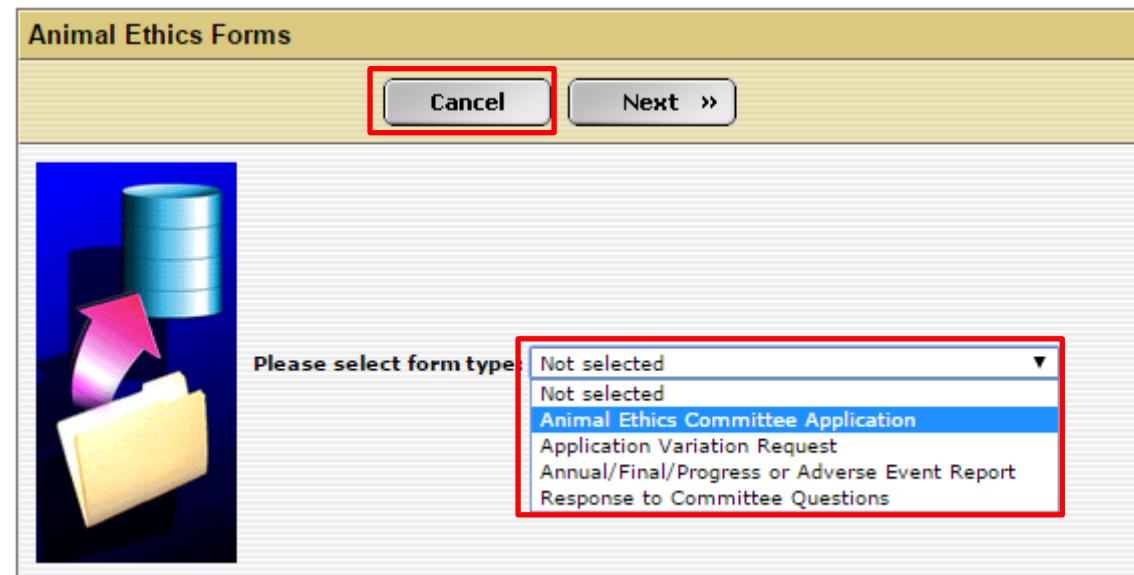

The screenshot shows the 'Animal Ethics' tab selected in the top navigation bar. Below it, a search bar has 'Search' and 'Create' buttons highlighted with a red box. A dropdown menu for 'Template' is open, showing 'Coversheets' selected, also highlighted with a red box. The main area displays a table with columns for ID, Status, Form, CI, CI department, Title, and Action. At the bottom, it shows 'Page number: 1 Number of records on this page: 0'.

Select the required form type.
New Application = "Animal Ethics Committee Application"
Variation = "Application Variation Request"
Report = "Annual/Final/Progress or Adverse Event Report"
Response to Committee Questions = "Response to Committee Questions"

In this case, select "Animal Ethics Committee Application" from the drop down box.

Then click on the  button

The screenshot shows a 'Cancel' button and a 'Next >' button at the top. Below them is a graphic of a blue cylinder and a yellow folder with a pink arrow. A dropdown menu titled 'Please select form type:' is open, listing several options: 'Not selected', 'Animal Ethics Committee Application' (which is highlighted in blue), 'Application Variation Request', 'Annual/Final/Progress or Adverse Event Report', and 'Response to Committee Questions'.

2.0 COVERSHEET TAB

Coversheets are comprised of a set of code blocks, each of which collects related pieces of data. This section details how to complete each code block that may appear on a coversheet.

NOTE: BY CLICKING 'SAVE' YOU WILL EXIT THE COVERSHEET AND RETURN TO THE 'ANIMAL ETHICS' LIST SCREEN (shown below).

Coversheet Questionnaire Documents Status History

Proportional Review Application Form

Animal Ethics Application Application Coversheet

Please note when adding the specific animal data in the Animal Usage tab, note the meaning of the following fields:
1) Number of Animals Requested is the total number of animals requested over entire study.
2) Anticipated re-use is the number of animals (if any) you anticipate to re-use during this study from this or other approved protocols.

Nominate Head of Element approver ?

Nominate Head of Element approver:

Please nominate the Head of School/Deputy Head of School/Centre Director/Institute Director (or acting Head of School/Deputy Head of School/Centre Director/Institute Director) who will provide final sign off for your application before it is reviewed and considered by the Office for Research and the Animal Ethics Committee.

<h2>2.1 Protocol Title</h2> <p>The Protocol Title is a mandatory field and will accept a maximum of 995 characters including spaces. Where possible use “plain English”. However, a more technically-phrased title that matches the title of a grant application is also acceptable. Ensure that the title is not identical to other projects, unless the application is replacing a previous approval with the same title.</p>	
<h2>2.2 Chief investigator</h2> <p>In addition to recording the Chief investigator's details, this code block is also used to determine the department to be used for some approvals and the primary department of the protocol.</p> <p>Note: HDR students cannot be listed as the Chief Investigator.</p> <p>You will need to contact animal-ethics@griffith.edu.au if this is incorrect.</p> <p>Note: The department of the CI cannot be overridden.</p>	
<h2>2.3 Selecting a Responsible Investigator</h2> <p>One of the Internal Investigators must be identified as the Responsible Investigator. This can be selected at the role drop down box at the Chief Investigator section of the Coversheet or at the Internal Investigators section.</p> <p>The Responsible Investigator (RI) must be an employee of Griffith University and preferably a person with an academic appointment.</p> <p>The Responsible Investigator is the person with ultimate responsibility for the care and use of animals in the project (see 2.4.5 of the Code)</p> <p>Ordinarily, the RI is closely involved with a project, and there is no doubt about that person's responsibility. Where students are using animals in a teaching and/or research program, the RI has responsibility to ensure that students carry out procedures and conduct themselves in an ethical manner.</p>	

<p>Acceptance of this responsibility is implicit when the application is signed and submitted.</p>	
<p>Enter the Chief Investigator's last name only if you don't have their Staff Number and need to look them up.</p> <p>If you know the CI's Staff Number, enter this into the field and the name will be automatically filled. If the Staff Number has less than 7 digits, add zeros (0) to make up the 7 digits, e.g. 9191 should be entered as 0009191.</p>	
<p>Then click on the 'Link' button to the right of their name to add them to the Coversheet.</p>	
<h2>2.4 Internal Investigators</h2> <p>The Internal investigators code block records all investigators except the CI.</p> <p>To add an internal investigator:</p> <ul style="list-style-type: none"> Select 'Yes' beside "Other Internal Investigators Involved", a new code block will display which allows adding and editing internal investigators Click Add in the Internal Investigators section Enter a staff ID or surname. This can be a partial surname, do not enter an initial Click Search If a valid staff ID was entered this step will be skipped, otherwise a list of internal staff members matching the search term will be displayed 	 

- click **Link** beside the correct staff member or click **Back** to enter a new search term
- Select this person's role from the Picklist
- Click '**Save**' 
- Continue adding researchers until the entire team is listed.
- Ensure you enter the total number of Griffith investigators (including the CI) in the '*Number of Internal Investigators (Including Chief Investigator)*'.
- Don't forget to add yourself as an investigator.

Coversheet - Investigator

Cancel  Save

Investigator name: Jones, Jesse

Role: **1.Investigator**

1.Investigator
2.Honours student
3.Masters student
4.PhD student
5.Undergraduate student
6.Animal Facilities personnel
7.Head of School/Centre Director (Office Use Only)
Griffith University

2.5 External Investigators

Similar to the above, to add an external investigator:

In the External investigators section, click **Add** 

Enter a surname, this can be a partial surname

Click **Search** 

A list of externals matching the search term will be displayed

Click **Link**  beside the correct external or click **Back** to enter a new search term

To set an external investigators role:

- Click the edit icon  beside the relevant investigator
- update the role
- Click **Save** 

NOTE: Although external investigators are unable to access RIMS, they are still required to sign off on a project they are named on.

This can be done by completing the External Researchers

Declaration form available at

<https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms> and uploading the completed form to the 'Documents' tab of your application in RIMS prior to submission.

Coversheet - Investigator

Cancel  Save

Investigator name: A Smith, J.

Role: **Co-investigator**

<p>If your team member is not shown click 'Create'</p>	
<p>You can enter as much information as you like but please enter at least the person's full name and their Institution.</p> <p>Click Save </p>	
<p>2.6 Start and End dates</p> <p>Enter the requested start and end dates. These are both mandatory fields. The start date cannot predate the submission of the application. Please submit your application more than a month (preferably two months) before your planned starting date.</p> <p>Submission deadlines are available at https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms</p> <p>Please note, no animal use may occur until approval has been granted by the Animal Ethics Committee and all animal use must be finished by the end date.</p> <p>Date format is dd/mm/yyyy. However d/m/yy is accepted also.</p> <p>Projects can be approved for a maximum period of three years. An extension can be granted for one further year upon request. Further approvals require the submission of a new application.</p>	

2.7 Standard Operating Procedures

Click Add 

The full list of SOPs will be returned. Find the SOP you wish to add to your application and press **Link** .

Repeat this process until the correct set of SOPs have been added to your application.

If the SOP you would like to add is not there, you can create your own and upload it to the Document's tab.

Further information about Standard Operating Procedures can be found here: <https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/standard-operating-procedures>

3.0 QUESTIONNAIRE TAB

Answer each question in order until the message "Questionnaire has been completed" displays. The questions presented will depend on the answers to previous questions. Answers can be revised at any time, until the application is submitted using the controls described below.

The three icons on the right of the questions do the following:

 - View the full question and answer

 - View question and change the answer to this question

 - Delete this answer

PLEASE NOTE: If you CHANGE or DELETE an answer you will be taken back to that point of the questionnaire and will lose all answers that you had previously entered after that question.

Undo clicking this button will undo just your last answer and you will be asked that question again.

Before completing the Animal Ethics Questionnaire please refer to the Australian code for the care and use of animals for scientific purposes [Code](#) and all other Acts and [Guidelines](#) applicable to your proposed research, such as:
[Animal Care and Protection Act \(2001\) \(QLD\)](#)

The University is registered to use live animals for scientific purposes including teaching. If a project is conducted by Griffith University staff or students at another institution independent approvals from each AEC must be obtained. AEC approved Standard Operating Procedures are available [here](#)

4.0 ANIMAL USAGE TAB

Use this tab to specify the type and number of animals requested in the application

- In the **Animal Usage Tab** of an Animal Ethics Application, click **Add**
- Select and add values to the fields.
- Click **Save**

Coversheet Questionnaire Animal Usage Documents Status History Administration

Animal Usage

+ Add

Country	State / Province	Invasiveness	Location	Classification one	Classification two	Common/strain name	Number of animals requested	Anticipated re-use	Action
Australia	Queensland	1. Observation Involving Minor Interference		Birds	Exotic wild	Paradisaeidae, Manucodia	50	0	

- Repeat the above steps until all the animals for your application are defined.

Confused about the 'Invasiveness' categories? Refer to the Guidelines for completing an application form available at:
<https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms>

Note: 'Death As An Endpoint' only applies in those rare cases where the death of the animal is a planned part of the experimental procedures. **Not** when animals will be humanely killed at the end of a project.

If animals will be housed or used inside a Griffith Animal Facility please specify the location on the **Locations Tab**.

5.0 DOCUMENTS TAB

To attach a document to an application

- In the Documents Tab of an Animal Ethics Application, click **Add**
- Add a '**Document description**'
- Select a '**Type of document**'
- Click **Browse**
- Locate and select a file and click **Open**, this screen will vary depending on the operating system used
- If the file type is not supported an error will be displayed, otherwise click **Upload**

The types of documents that can be uploaded are listed across the top of the code block:
msg, pdf, doc, wav, mp3, xls, tif, tiff, jpg, jpeg, mov, wma, docx, xlsx, rtf file types

You are required to provide copies of the following documents for review where applicable:

- Team Member Table
- External Researchers Declaration
- Copies of permits
- Copies of associated UBC /HREC applications and approval notifications
- Any essential papers for reading by the Committee
- A welfare assessment score and judgement sheet tailored appropriately for use during the project if animals are to be held for any period. An example of a laboratory animal monitoring template is available at <https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms>. Information regarding how the wellbeing of animals will be monitored and assessed throughout the project, the frequency of monitoring and assessment, the actions to be taken if problems are identified, and the criteria for intervention points and humane endpoints must be included.
- Any Standard Operating Procedures
- Where a Prior Review Application is being submitted, a copy of the full application submitted to the other institution's AEC and the approval issued.

Please do not provide CVs, grant applications or approvals, PhD proposals or confirmation documents unless requested.

The three icons on the right of the uploads do the following:

- View question and change the answer to this question
- View the document that has been uploaded (this will take you to a screen where you can download the document)
- Delete this document

The screenshot shows a software interface for managing documents. At the top, there are tabs: Coversheet, Questionnaire, Animal Usage, Documents (which is selected and highlighted in yellow), and Status History. Below the tabs, a message says "You may upload msg, pdf, doc, wav, mp3, xls, tif, tiff, jpg, jpeg, mov, wma, docx, xlsx, rtf file types". There is a large green "Add" button. Below these are two rows of information. The first row contains "Date" (17/08/2015), "Type" (Other), "Document" (Info sheet), "File Size" (223973), and "File" (pdf). The second row is partially visible. To the right of the "File" column, there is an "Action" column with three icons: a pencil, a magnifying glass, and a trash can. The trash can icon is highlighted with a red box.

Date	Type	Document	File Size	File	Action
17/08/2015	Other	Info sheet	223973	pdf	

6.0 STATUS HISTORY TAB

You are not required to do anything in this tab. This tab allows you to monitor the progress of your application.

'New' – Application is in the process of being completed

'Submitted' – Application has been submitted but not yet viewed by the Office for Research

'To be Considered' – Application will be considered by the Animal Ethics Committee

'Considered by the AEC' – Application has been converted to a Protocol and therefore has received at least Provisional Approval. Please note, if provisional approval has been issued you CANNOT commence animal work until a response to the matters communicated with you in the outcome letter have been addressed and you have been issued with an official approval notification that you may commence the protocol.

The screenshot shows two instances of the "Status History" tab. Both instances have a header bar with tabs: Coversheet, Questionnaire, Documents, Status History (which is selected and highlighted in yellow), and Administration. Below the header is a table with columns: Date, Time, Status, and Created by. The first instance shows a single entry: Date 03/08/2015, Time 12:06:25, Status New, and Created by Lawson, Marnie. The second instance shows multiple entries:
1. Date 29/07/2015, Time 13:55:32, Status Considered - create/update protocol, Created by Lawson, Marnie.
2. Date 29/07/2015, Time 13:02:55, Status To be Considered, Created by Lawson, Marnie.
3. Date 28/07/2015, Time 15:00:45, Status Submitted, Created by Clapton, Jayne.
4. Date 28/07/2015, Time 14:49:18, Status New, Created by Clapton, Jayne.
The first table has a green header bar with the text "This coversheet has been submitted".

Date	Time	Status	Created by
03/08/2015	12:06:25	New	Lawson, Marnie

Date	Time	Status	Created by
29/07/2015	13:55:32	Considered - create/update protocol	Lawson, Marnie
29/07/2015	13:02:55	To be Considered	Lawson, Marnie
28/07/2015	15:00:45	Submitted	Clapton, Jayne
28/07/2015	14:49:18	New	Clapton, Jayne

7.0 SUBMIT APPLICATION

In order to submit your application, return to the 'Coversheet' Tab

To submit the completed application;

Click the **Submit** button

The database will send an email to the listed internal investigators (including the Chief Investigator) to confirm the application has been submitted.

After an application has been submitted, all listed Internal Investigators will then need to go to their 'My Approvals' Tab on their 'RIMS Researcher Profile' page to approve the submission of the application. (The sign off for any external investigators should have been uploaded to the Documents tab using the **External Researchers Declaration** form available at <https://www.griffith.edu.au/research/research-services/research-ethics-integrity/animal/applications-and-forms> prior to the application's submission)

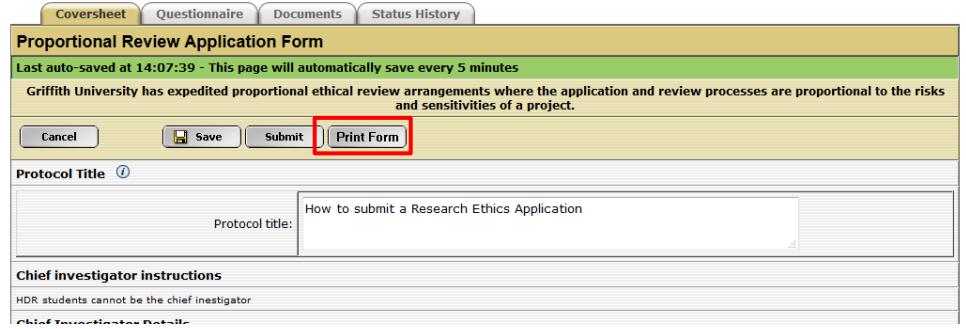

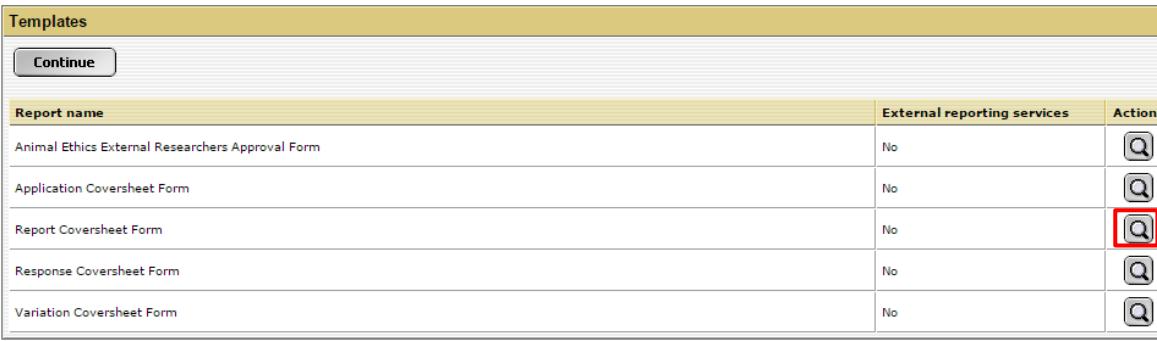

Instructions for how to do this are located in **Section F** of this document.

Once all the listed investigators have approved the application, the Office for Research will assess the nominated **Head of School / Centre Director** and add them to the approver process to also verify the application. Once they have also approved the application it will be forwarded to the Animal Ethics Committee for consideration.

However, if you are aware that the HoS is on leave and/or a Centre Director (not a HoS) or a Deputy Head / Acting Head needs to approve the application submission please contact the Office for Research (373 52069 or animal-ethics@griffith.edu.au) and advise the name of the alternate approver. The ethics officers will be able to replace the absent staff member with the person acting in the role.

The screenshot shows a software interface for an 'Animal Ethics Committee Application'. At the top, there are tabs for 'Coversheet', 'Questionnaire', 'Animal Usage', 'Documents', and 'Status History'. Below the tabs, the title 'Animal Ethics Committee Application' is displayed. A green banner at the top states 'Last auto-saved at 16:14:35 - This page will automatically save every 5 minutes'. In the center, there is a large button labeled 'Submit' which is highlighted with a red box. Other buttons include 'Cancel', 'Save', 'Print Form', and 'Email'. Below these buttons, the text 'Animal Ethics Application Application Coversheet' is shown. A note below the title provides instructions for adding specific animal data: 'Please note when adding the specific animal data in the Animal Usage tab, note the meaning of the following fields: 1) Number of Animals Requested is the total number of animals requested over entire study. 2) Anticipated re-use is the number of animals (if any) you anticipate to re-use during this study from this or other approved protocols.'

If you have any questions please contact the
Animal Ethics staff:
Ph: 373 52069
animal-ethics@griffith.edu.au

<p>Print Coversheet and Questionnaire</p> <p>As the signing of ethics applications is now conducted via an online workflow, the Office for Research does not require an additional hard copy or pdf version. However if you would like a printed / pdf copy for your own records follow these steps:</p> <ul style="list-style-type: none"> • Return to the Coversheet Tab • Click Print Form 	
<ul style="list-style-type: none"> • Click on the magnifying glass  	
<ul style="list-style-type: none"> • Click (1), this will download the document to your default download location e.g. a Download folder on your computer, or your desktop. We cannot help you find this document but it will be named "TMP...." and several digits e.g. TMP621247102015724141141.doc • Click (2) to return to the 'Coversheet' tab <p>The document will look like the image on the far right.</p>	<p>(1) Click this link to open your document You may also right click and Save target to your hard drive</p>  <p>(2) Click this link to return to your coversheet</p> <p>GRIFFITH UNIVERSITY ANIMAL ETHICS COMMITTEE APPLICATION</p> <p>Project Title: Testing of Animal Ethics Element: School of Humanities; Arts, Education & Law Group Chief Investigator: Mr Jesse Jones Investigators: Jones Jesse; Kaur Jassie; Email: jesse.jones@griffith.edu.au; j.kaur@griffith.edu.au; Duration of project / animal use Date From: 01/01/0000 Date to: 01/01/0000 Attached Documents: 03/09/2015 Licence Test Document Title </p>

8.0 OTHER INFORMATION – RIMS FUNCTIONS

8.1 Common controls

The following navigation controls are available when answering the questionnaire:

Undo

: deletes the last answer and presents the question before that with the answer removed

Next >>

: move to the next answer, the current question must be answered or an error message will display

Preview

: open a new screen which displays the questions in the order they were presented and with no truncation of questions or answers

Restore

: restore a previously deleted answer to the current question. This button is only displayed where an answer to the current question has been deleted

Return

: Displayed when viewing a question answer, clicking returns the user to the current question

<< Back

: Return to the coversheet from Preview mode

The following controls are available beside each question answer:

: view questions, opens the question and answer in the current question pane with neither question nor answer truncated. The answer cannot be changed on this screen

: edit the question. Edit the answer to the relevant question. Depending on the question type and new answer the question logic may result in some questions being re-presented or a new set of questions being presented. The user is warned that this will happen but the deleted answers are available through the restore functionality

: Delete the answer to the relevant question. Depending on the question type and new answer the question logic may result in some questions being re-presented or a new set of questions being presented. The user is warned that this will happen but the deleted answers are available through the restore functionality

8.2 Question types - There are three question types displayed when answering a questionnaire:

Memo: free text is used to answer the question, text must be entered before moving to the next question

Undo	Next >>	Preview
<p>Please state the scientific or educational aims clearly and if appropriate, include an outline of how the project relates to an overall program of work. Avoid the use of technical language (to assist the comprehension of our expert but lay members). Please limit your response to 250 words. Include any essential reference citations here. Remember to upload all essential papers to the Documents tab for reading by the Committee.</p>		

Picklist: A drop down box with a set of possible values, only one of which can be selected. Not selected is the default answer and must be updated before moving to the next question

9.0 ACCESSING PREVIOUS SUBMISSIONS

9.1 Current Coversheets:

When you first submit an application it is entered as a '**Coversheet**'. The screen pictured on the right lists each Coversheet you have created. If the Coversheet is highlighted in green it has been submitted. If the listed Coversheet is white it is still 'New' and must be submitted for the Office for Research for the review process to commence.

Once a Coversheet is highlighted in green, it cannot be added to or modified.

To view any of your Coversheets (submitted and new)

- Click on 'Researcher Profile' in the red banner at the top of the screen.
- Click the 'Animal Ethics' Tab

The screenshot shows a table titled 'Animal Coversheets' with columns for ID, Status, Template, Title, and Action. All rows are highlighted in green, indicating they are submitted. The 'Status' column shows 'Considered by the AEC'. The 'Template' column shows 'Main Migration'. The 'Title' column contains brief descriptions of the research projects. The 'Action' column contains edit icons for each row.

ID	Status	Template	Title	Action
RAD01x953	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x952	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x951	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x950	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x949	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x948	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x947	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x946	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x945	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x944	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x943	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x942	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	
RAD01x941	Considered by the AEC	Main Migration	Assessing the nutritional condition of female olive ridley sea turtles	

9.2 Current Protocols:

Once the AEC has considered an application, if an approval status of either Full Approval, Conditional Approval or Provisional Approval is issued, the Coversheet will then become a '**Protocol**' and can be found on the screen pictured on the right:

- Click on 'Researcher Profile' in the red banner at the top of the screen.
- Click on the 'Animal Ethics' Tab.
- Change the dropdown to '**protocols**'
- Press the **Search** button
- By clicking on the in the right hand column you can re view the Protocol.

The screenshot shows a table titled 'Animal Ethics' with columns for Protocol Number, Type, Title, First-named Investigator, and Action. The 'Type' dropdown is set to 'Protocols'. The 'Title' column contains the text 'How to submit an application for Ethical Approval of Animal Research.'. The 'Action' column contains an edit icon for the last row.

Protocol Number	Type	Title	First-named Investigator	Action
Not selected	Expedited Ethical Review	How to submit an application for Ethical Approval of Animal Research.		

Click through each Tab to review the protocol, to return to the search screen go back to the '**Main Details**' Tab and click '**Cancel**' to return to the list page.

If the application was not approved by the AEC and a resubmission is required, your application will be set at 'New' status and will be available to the applicants for further editing.

Protocol type: Animal expedited review ▾
Protocol status: New ▾
Protocol submitted date:

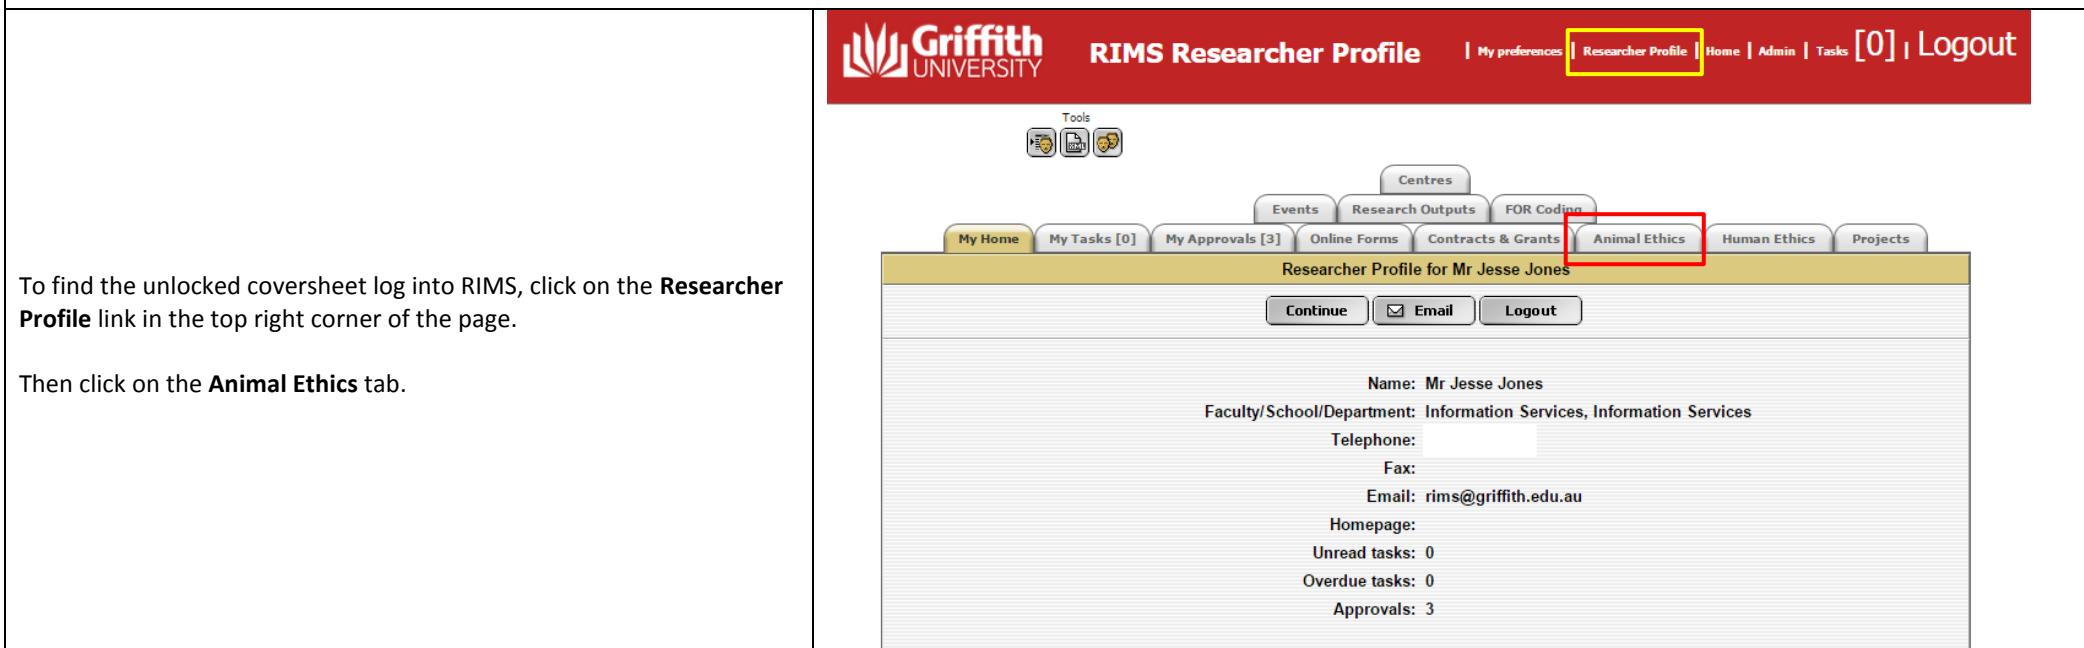

Template	Type	Status	Created	Action
Animal Ethics Committee Application		Considered by the AEC	13/08/2015	

The '**Coversheet**' Tab lists which Coversheets have been submitted - i.e. the original application, any Variation Requests, Annual or Final Reports.

B) RESUBMIT APPLICATION/VARIATION/REPORT REQUEST

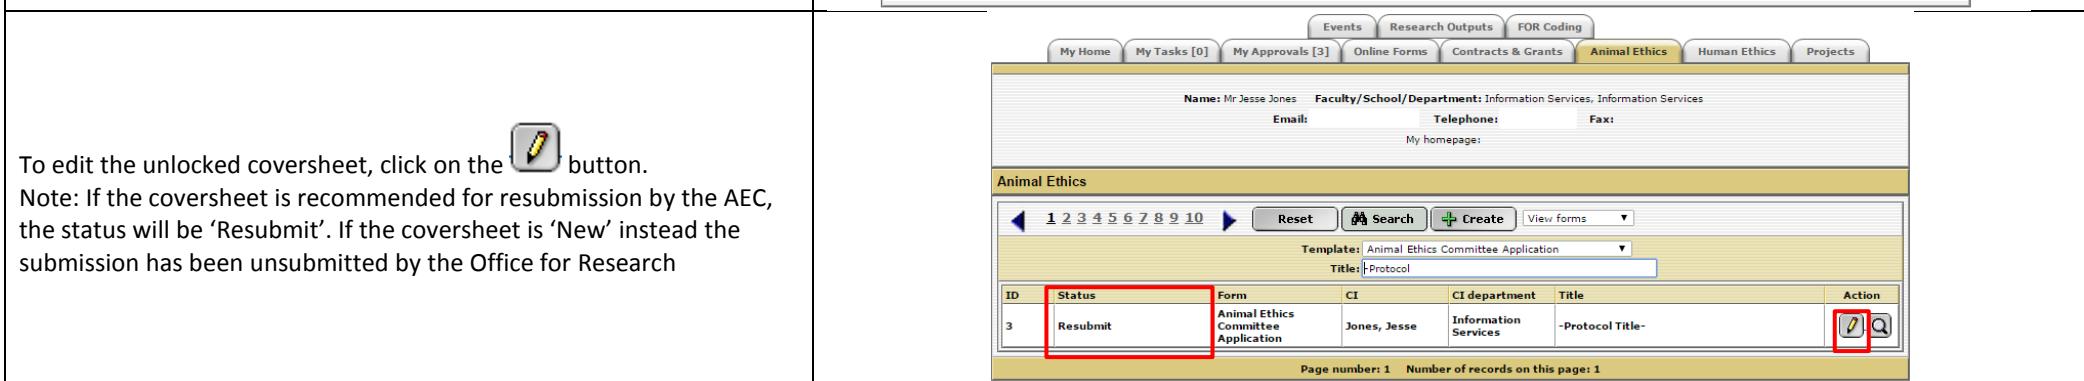

If an application/variation/report you're listed on as an investigator has been considered and you've been asked to resubmit, the application's/variation's/Report's status will change to **Resubmit**. Your submission is now unlocked for you to edit and submit again.

Any questions/comments from the Committee will be communicated via email to the listed investigators at the same time as the record is unlocked. Please upload a cover letter to the Documents Tab describing the changes you have made to the resubmitted application/variation/report.

To find the unlocked coversheet log into RIMS, click on the **Researcher Profile** link in the top right corner of the page.

Then click on the **Animal Ethics** tab.

To edit the unlocked coversheet, click on the  button.

Note: If the coversheet is recommended for resubmission by the AEC, the status will be 'Resubmit'. If the coversheet is 'New' instead the submission has been unsubmitted by the Office for Research

ID	Status	Form	CI	CI department	Title	Action
3	Resubmit	Animal Ethics Committee Application	Jones, Jesse	Information Services	-Protocol Title-	

On the **Coversheet** tab edit the following fields as necessary:

Protocol Title – Edit the text here only if requested by the Committee.

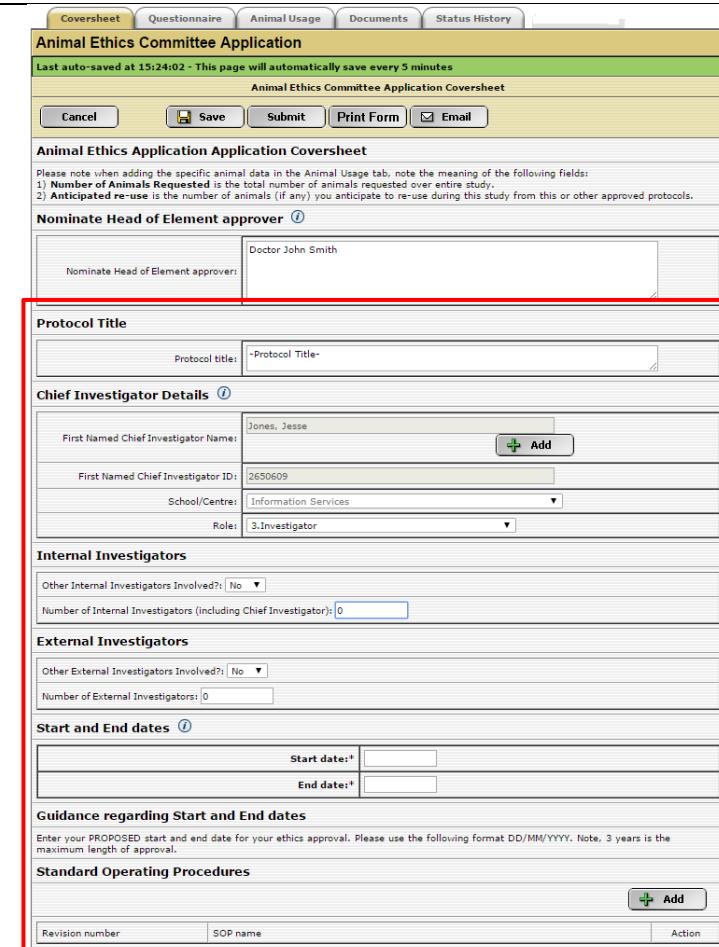

Chief Investigator Details – Click the  button, search by surname or staff/student number without the ‘s’ (i.e. 0123456) . Link the person in your search result by press  button. Then select the role of the Chief Investigator from the dropdown.

Internal Investigators – If the ‘Other Internal Investigators Involved’ dropdown is selected ‘No’, change it to ‘Yes’ and press the  button that then displays. Search by surname or staff/student number without the ‘s’ (i.e. 0123456) . Link the person in your search result by press  button. Then select the role of the internal investigator from the dropdown. Ensure that either the Chief Investigator or one of the Internal Investigators has the role of ‘Responsible Investigator’ selected from the drop down box.

External Investigators – If the ‘Other External Investigators Involved’ dropdown is selected ‘No’, change it to ‘Yes’ and press the  button that then displays. Search by surname and link the person in your search result by press  button. Then select the role of the external investigator from the dropdown.

Start and End dates – Edit the dates as necessary with the format dd/mm/yyyy.

Standard Operating Procedures – Click the  button and then press the  button of the SOP you wish to add. If your SOP is not there, you can create your own and submit it for review at the same time you lodge your application.

The screenshot shows the 'Animal Ethics Committee Application' interface. At the top, there are tabs for 'Coversheet', 'Questionnaire', 'Animal Usage', 'Documents', and 'Status History'. Below the tabs, a green header bar displays the last auto-save time and a note about automatic saving every 5 minutes. The main area is titled 'Animal Ethics Committee Application Coversheet'. It includes sections for 'Nominate Head of Element approver', 'Protocol Title', 'Chief Investigator Details', 'Internal Investigators', 'External Investigators', 'Start and End dates', and 'Standard Operating Procedures'. The 'Protocol Title' field and the entire 'Chief Investigator Details' section are highlighted with a red box.

Important: It is highly recommended that before you edit any information in the Questionnaire Tab that you first click on the **Coversheet** Tab, press the **Print Form** button and download a copy of the form that corresponds with the type of coversheet you are editing. This will preserve a copy of your questions and answers. Editing questions can result in subsequent questions being deleted. Having a saved copy of your earlier responses in the Questionnaire Tab can improve the process of resubmitting the Coversheet with a completed questionnaire.

To edit the questionnaire use the following actions.

- To view all the questions and answers in full, press the **Preview** button.
- To view an individual question and answer, press the **Q** button.
- To edit an answer, press the **Pencil** button. **Note:** that editing an answer to a question that is not a textbox may remove subsequent questions and answers, as your new answer may alter the future questions that will be asked in the questionnaire.
- To delete an answer, press the **Trash** button. **Note:** All subsequent questions and answers after the deleted question will also be deleted.

Click on the **Animal Usage** Tab.

- To add additional animals, click on the **+ Add** button and fill out all the listed fields. If the animals are to be used in Laboratory research, then click on the **Locations** Tab, press the **+ Add** button and press the **LINK** button on one of the listed Griffith Animal Facilities.
- To edit already added animals, click on the **Pencil** button and edit the listed information accordingly.

Ref	Question	Answer	Action
6.0	No animal ethics application is currently required	Continue...	
4.0	1- Does the proposed activity <u>only</u> include	Yes	
3.0	Please note, effective alternatives to using live	Proceed to questionnaire	
2.0	Before completing the Animal Ethics Questionnaire	Continue	
1.0	Welcome to Griffith University's	Continue...	

Country	State / Province	Invasiveness	Location	Classification one	Classification two	Common/strain name	Number of animals requested	Anticipated re-use	Action
Australia	Queensland	1. Observation Involving Minor Interference		Aquatic animals	Fish	yellow yellow	100	0	

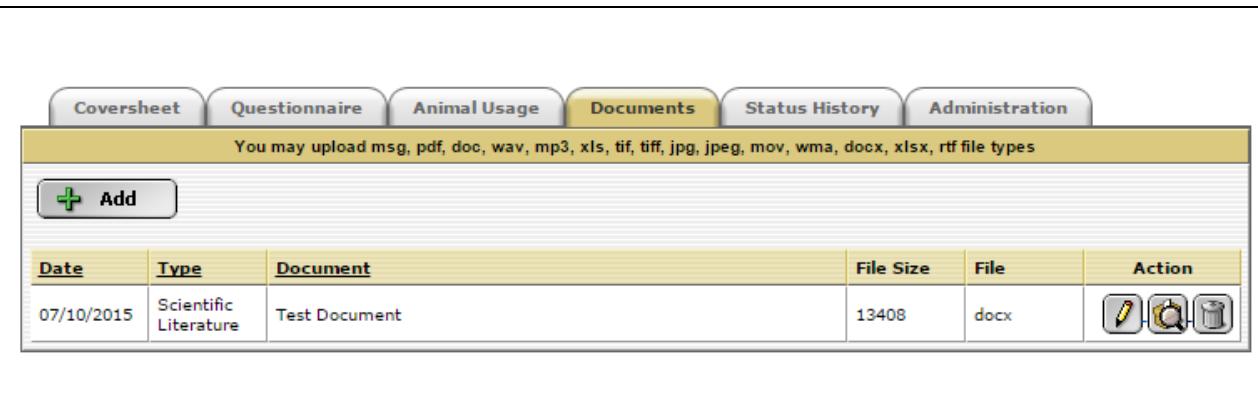

Click on the **Documents** Tab.

- To add a new document, click on the  button.
 - Describe the document in the **Document description** field.
 - Click the  button to find a file to upload.
 - Select a value in **Type of document** dropdown.
- To view an already uploaded document, click the  button and press the text '(1) Click this link to open your document'
- To delete an attached document, press the  button and click the  button when prompted.

Once you've made all the necessary changes to your coversheet, click on the **Coversheet** tab and press the  button.

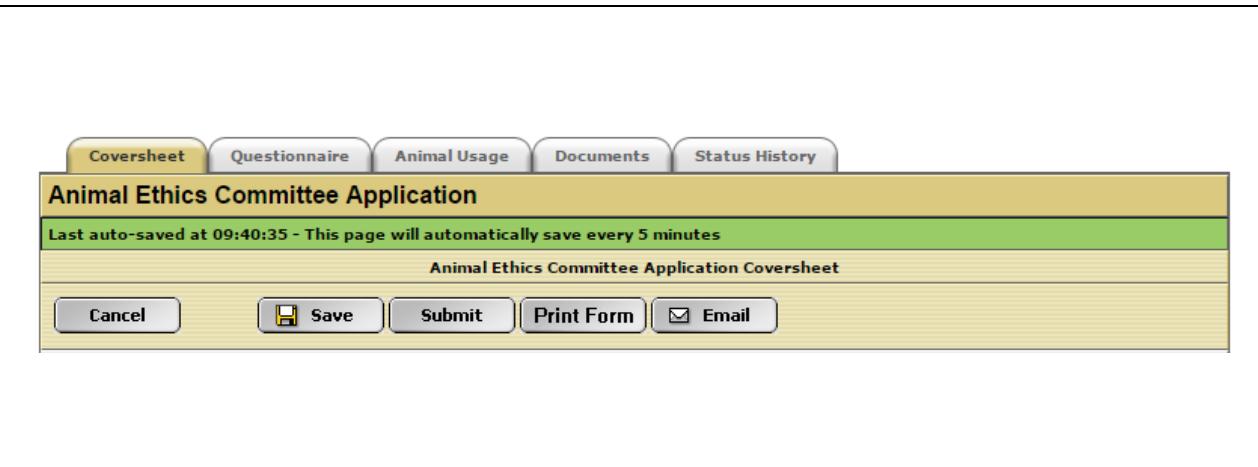

Alternatively, if you wish to save your changes without submitting, you can press the  button at any time and come back to your coversheet later.

Once the  button has been pressed, the Chief Investigator will be prompted by email to review and approve the submission (if it is an application), then all other internal investigators listed on the Coversheet will be also prompted to review and approve the submission. Once all team members have approved the submission a request will go to the Head of School/Centre Director.

The screenshot shows a user interface for managing documents. At the top, there is a navigation bar with tabs: Coversheet, Questionnaire, Animal Usage, Documents (which is highlighted in yellow), Status History, and Administration. Below the navigation bar, a message states: "You may upload msg, pdf, doc, wav, mp3, xls, tiff, jpg, jpeg, mov, wma, docx, xlsx, rtf file types". A large green "Add" button is prominently displayed. Below this, there is a table with columns: Date, Type, Document, File Size, File, and Action. One row is visible in the table:

Date	Type	Document	File Size	File	Action
07/10/2015	Scientific Literature	Test Document	13408	docx	  

The screenshot shows a form titled "Animal Ethics Committee Application". At the top, there is a navigation bar with tabs: Coversheet (highlighted in yellow), Questionnaire, Animal Usage, Documents, and Status History. Below the navigation bar, a message says: "Last auto-saved at 09:40:35 - This page will automatically save every 5 minutes". The main section is titled "Animal Ethics Committee Application Coversheet". At the bottom, there are several buttons: Cancel, Save (with a disk icon), Submit (with a checkmark icon), Print Form (with a printer icon), and Email (with an envelope icon).

C) VARIATION REQUEST

To access the Animal Ethics module select the Animal Ethics Tab from the Researcher Profile landing page in RIMS

Begin a variation request by selecting ‘Coversheets’ in the in the Picklist and clicking on the **Create** button.

Select “**Application Variation Request**” from the picklist.

Then, click on the **Next >>** button

You will then need to select the approved protocol you wish to make the variation/amendment to:

Click **Search**

Enter the protocol details into the search fields and click ‘Search’

Click the **Link** button to choose the protocol

The screenshot shows the RIMS Researcher Profile landing page. At the top, there is a navigation bar with tabs: Events, Research Outputs, FOR Coding, My Competencies, My Home, My Tasks [0], My Approvals [0], Online Forms, Contracts & Grants, **Animal Ethics** (which is highlighted with a red box), and Human Ethics. Below the navigation bar, there is a user profile section with fields for Name, Faculty/School/Department, Email, Telephone, and homepage. Under the Animal Ethics tab, there is a sub-navigation bar with links: Research Outputs, FOR Coding, My Home, My Tasks [0], My Approvals [0], Contracts & Grants, **Animal Ethics** (highlighted with a red box), and Human Ethics. The main content area is titled "Animal Ethics" and contains a search bar with a dropdown menu. The dropdown menu is open, showing options: Coversheets (highlighted with a red box), Protocols, Template: All records, and Title: [text input field].

The screenshot shows the "Animal Ethics Forms" dialog box. It has "Cancel" and "Next >>" buttons at the top. In the center, there is a graphic of a blue cylinder and a yellow folder with a pink arrow. Below the graphic, there is a dropdown menu labeled "Please select form type:". The menu is open, showing several options: Not selected, Animal Ethics Committee Application, **Application Variation Request** (highlighted with a red box), Annual/Final/Progress or Adverse Event Report, and Response to an Existing Application.

The screenshot shows the "Animal Ethics Forms" dialog box. It has "Cancel" and "Next >>" buttons at the top. In the center, there is a graphic of a blue cylinder and a yellow folder with a pink arrow. Below the graphic, there is a dropdown menu labeled "Please select form type: Application Variation Request". Below the dropdown, there is a text field labeled "Please select your project file" with a **Search** button next to it (highlighted with a red box).

Coversheet Tab

Note the form name is '*Application Variation Request*', and there is a note '*This coversheet is a modification to protocol number 954*'. Hence, you are creating a new Variation 'Coversheet', not making changes to the protocol itself. The changes will be made to the protocol by the ethics reviewers once the variation is approved.

Changes can be made to any of the fields in the '**Coversheet**' Tab.

Refer to **Section 1** instructions in this document if you wish to amend / add any details to the Coversheet Tab.

Coversheet **Questionnaire** **Animal Usage** **Documents** **Status History**

Application Variation Request

Last auto-saved at 16:55:22 - This page will automatically save every 5 minutes

Use this Variation Coversheet and associated tabs to request minor changes to methods or types of animals specified in your approved project, to request an extension or to add or remove project team members.

This coversheet is a modification to protocol number 954

When not to use this application coversheet?

Variations that will involve significant changes to protocols, an increase in animal numbers or are a request to extend a project for more than one year must be submitted as a new application.

Note:

Please modify the automatically generated coversheet fields below to reflect any requested changes. Please amend animal details on the Animal Usage tab as appropriate and complete the questionnaire before hitting submit.

Nominate Head of Element approver

Nominate Head of Element approver:

Chief Investigator Details

Blumenstein, Michael

D) ANNUAL / FINAL REPORT / PROGRESS OR ADVERSE EVENT FORM

To access the Animal Ethics module select the **Animal Ethics** Tab from the Researcher Profile landing page in RIMS

The screenshot shows the RIMS researcher profile landing page. At the top, there are several tabs: Events, Research Outputs, FOR Coding, My Competencies, My Home, My Tasks [0], My Approvals [0], Online Forms, Contracts & Grants, **Animal Ethics** (which is highlighted with a red box), and Human Ethics. Below the tabs, there is a sub-navigation bar with buttons for Research Outputs, FOR Coding, My Home, My Tasks [0], My Approvals [0], Contracts & Grants, **Animal Ethics** (highlighted with a red box again), Human Ethics, and Projects. The main content area displays the researcher's name (Jesse Jones), faculty/school/department (An Unassigned Group, An Unassigned Department), email (rims@griffith.edu.au), telephone, fax, and homepage link. A section titled "Animal Ethics" contains a toolbar with buttons for Create, Reset, Search, and a dropdown menu labeled "Coversheets ▾". The dropdown menu has options: All records, Coversheets (highlighted with a red box), and Protocols. Below the toolbar is a table header with columns: ID, Status, Form, CI, CI department, Title, and Action. At the bottom of the page, it says "Page number: 1 Number of records on this page: 0" with navigation icons.

Begin a report by selecting '**Coversheets**' in the in the Picklist and clicking on the **Create** button.

The screenshot shows a modal dialog box titled "Animal Ethics Forms". It features a "Cancel" button and a "Next >" button. On the left is a decorative graphic of a blue cylinder and a yellow folder with a pink arrow pointing up. To the right is a dropdown menu labeled "Please select form type:" with the following options: Not selected, Animal Ethics Committee Application, Application Variation Request, **Annual/Final/Progress or Adverse Event Report** (which is highlighted with a red box), and Response to an Existing Application.

Select "**Annual/Final/ Progress or Adverse Event Report**" from the picklist.

Then click on the **Next >** button

As with the Variation Request you must link the report to the appropriate approved protocol.

Search for and choose the protocol you wish to submit the report for by entering the protocol details into the search fields and click 'Search'

Click the **Link**  button to choose the protocol

Cancel  Save Submit Print Form

Advice regarding reports:

A Progress Report should accompany all variation requests.
Annual Reports are due for all approved projects by 25 January each year irrespective of whether animal use had occurred or not.
A Final Report must be submitted upon the completion of a project.
A Report of Adverse or Unexpected Event During the Conduct of an Approved Project must be submitted promptly in the event of an adverse or unexpected event.

Animal Usage Tab

Please complete the Animal Usage – Years details within the Animal Usage tab following the guidance provided below carefully:

- In the 'Year' field, please enter the year for the reporting period (For example, if completing an annual report for 2016 in January 2017, please enter 2016 here).
- In the 'Date' field, please enter today's date in the format of dd/mm/yyyy.
- At 'Report Type' Please select the type of report you are submitting
- At 'Animals used and to be used the following year' Please specify the number of animals that were used in the calendar year for which you are reporting that will also be used in the following year (for example, if your experiment with 5 mice runs from 15 November 2015 to 15 January 2016, '5' should be entered here)
- At 'Total used this year' Please specify the total number of animals used in the calendar year for which you are reporting. If no animal use occurred '0' (zero) must be entered here to allow accurate reporting to the state government. Ensure to also include the animals counted in the box above in your count.

F) INTERNAL INVESTIGATOR / HEAD OF SCHOOL REVIEW OF ETHICS APPLICATION

Every ethics Application must be approved by all Internal Investigators listed on the application **and** the relevant Head of School or Centre Director in RIMS. However, Variations, Reports and Response Coversheets do not go through this approval process.

To review a submitted ethics application:
Click on 'Researcher Profile' in the red banner.
Click on 'My Approvals'

The screenshot shows the Griffith University RIMS Researcher Profile interface. At the top, there is a red banner with the university logo and the text 'RIMS Researcher Profile'. Below the banner, there are several navigation links: 'My preferences', 'Researcher Profile' (which is highlighted with a yellow box), 'Home', 'Tasks [0]', and 'Logout'. A horizontal menu bar follows, with tabs for 'Events', 'Research Outputs', 'FOR Coding', 'My Competencies', 'My Home', 'My Tasks [1]', 'My Approvals [3]' (which is also highlighted with a yellow box), 'Contracts & Grants', 'Animal Ethics', and 'Human Ethics'. The main content area displays a form with fields for 'Name', 'Faculty/School/Department' (set to 'Science, Environment, Engineering and Technology Group, School of Information and Communication Technology'), 'Email', 'Telephone' (11111), 'Fax', and 'My homepage'. Below this is a summary table with filters: 'Total [3]', 'Animal [1]', 'Human [0]', and 'Grants [2]'. The 'Animal' filter is highlighted with a yellow box. Under the heading 'Approvals', there is a table listing three entries:

Source	ID	Status	Template	Type	Title	Action
Grant	22	Submitted	OR- Research Grant Application Coversheet	On-line form	approval path test 2	
Grant	1	Submitted	OR- Research Grant Application Coversheet	On-line form	coversheet sumbit email test	
Animal	1	Considered by the AEC	Animal Ethics Committee Application	On-line form	How to submit an application for Ethical Approval of Animal Research.	

Note: This tab may have a number in its description (e.g. [1]) which is indicative of the amount of outstanding approvals in your queue.

Above the list of outstanding approvals are four filters (Total, Animal, Human, and Grants). Because this document is exclusively handling Animal approvals, click on the **Animal** filter.

Click on the Pencil button to open an approval task.

The screenshot shows the same RIMS interface as above, but with the 'Animal' filter selected. The 'Animal' filter is highlighted with a yellow box. The table below shows one entry:

Source	ID	Status	Template	Type	Title	Action
Animal	1	Considered by the AEC	Animal Ethics Committee Application	On-line form	How to submit an application for Ethical Approval of Animal Research.	

<p>Reviewing an application</p> <p>Review the submitted application by clicking on any of the tabs:</p> <ul style="list-style-type: none"> • Coversheet – On this tab you will be able to view the research <u>Title</u>, all listed <u>Investigators</u>, the proposed <u>Start and End Date</u>, <u>External Approvals</u> etc. <p>Note: Clicking Continue will take you back to the 'My Approvals' list.</p>	<p>This coversheet has been submitted</p> <p>This coversheet is a modification to protocol number 954</p> <p>Continue Print Form</p>

<p>Questionnaire</p> <p>You will be able to view all the questions and answers.</p> <p>Once on the Questionnaire Tab,</p> <p>Click on the Preview button to clearly view all the information.</p> <p>Click on Back button to return to the tabs screen</p>	<p>Application Coversheet Questionnaire 100% complete for published version 19</p> <p>This tab is read-only</p> <p>Preview</p> <p>Questionnaire has been completed</p> <p>Answers</p> <table border="1"> <thead> <tr> <th>Ref</th> <th>Question</th> <th>Answer</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td>6.0</td> <td>No animal ethics application is currently required</td> <td>Continue...</td> <td></td> </tr> <tr> <td>4.0</td> <td>Does the proposed activity <u>only</u> include the</td> <td>Yes</td> <td></td> </tr> <tr> <td>3.0</td> <td>Effective alternatives to using live animals must</td> <td>Proceed to questionnaire</td> <td></td> </tr> <tr> <td>2.0</td> <td>Before completing the Animal Ethics Questionnaire</td> <td>Continue</td> <td></td> </tr> <tr> <td>1.0</td> <td>Welcome to Griffith University's</td> <td>Continue...</td> <td></td> </tr> </tbody> </table> <p>Preview</p> <p>This questionnaire has been submitted</p> <p><< Back</p> <p>1 - Welcome to Griffith University's Animal Ethics Application Questionnaire. In this questionnaire, you will be guided through a series of questions to allow the Animal Ethics Committee to assess your application.</p> <p>Please note that there is a limit of 15 minutes to complete each question. If this time is exceeded your answer may not be saved by the system. It is recommended that you prepare long answers outside of RIMS and paste your responses into the questionnaire.</p> <p>If you choose to edit your response to a previous question, please note that your responses to subsequent questions will be deleted. The 'restore' button can be used to bring back your subsequent answers if this occurs, however only your first answer submitted for each question will be preserved. To ensure that your most recent responses are available to you, use the 'print form' button on the coversheet tab to produce a word document containing all information entered into the application. Save this file as a reference each time you change your responses.</p> <p>For further information regarding application submissions, please consult the animal ethics website or contact the ethics team. If you experience any technical difficulties, please contact the INS RIMS support team at: elassist@griffith.edu.au or 07 373 55444.</p> <p>Continue...</p> <p>2 - Before completing the Animal Ethics Questionnaire please refer to the Australian code for the care and use of animals for scientific purposes (code) and all other Acts and Guidelines applicable to your proposed research, such as:</p> <p>Animal Care and Protection Act (2001)(QLD) NHMRC Guidelines</p>	Ref	Question	Answer	Action	6.0	No animal ethics application is currently required	Continue...		4.0	Does the proposed activity <u>only</u> include the	Yes		3.0	Effective alternatives to using live animals must	Proceed to questionnaire		2.0	Before completing the Animal Ethics Questionnaire	Continue		1.0	Welcome to Griffith University's	Continue...

Documents

This tab will allow you to view and download any of the documents attached to application.

- Click (1), this will download the document to your default download location e.g. a Download folder on your computer, or your desktop. We cannot help you find this document but it will be named "TMP...." and several digits e.g.
TMP621247102015724141141.doc
- Click (2) to return to the 'Coversheet' tab

Date	Type	Document	File Size	File	Action
14/08/2015	Protocol	Supporting Document	74783	pdf	

(1) Click this link to open your document
You may also right click and Save target to your hard drive

(2) Click this link to return to your coversheet

Status History

This tab will show you the history of the application, including the name of the original submitter.

After carefully considering the information in the application, please determine whether you approve or reject the application.

- To **approve** the application, press the **Approve**
- To **reject** the application you should first provide justification for it in the 'Reason' textbox, before pressing the **Reject**

Note: If an application is rejected by either the Chief Investigator or the Head of School / Centre Director an email will be sent to the listed investigators e.g:

'Dear Jesse Jones,
Unfortunately your application or variation requested for your protocol titled "How to submit an application for Ethical Approval of Animal Research." cannot be considered by the Animal Ethics Committee as the

Date	Time	Status	Created by
