

BIOBANKING – THE NEXT LEVEL

STEVE VALLAS

BLOCKCHAIN AUSTRALIA

“THE AUSTRALIAN BLOCKCHAIN ECOSYSTEM - HOW WE GOT HERE, WHERE WE ARE AND THE OPPORTUNITY THAT LIES ON THE ROAD AHEAD”

Steve is the CEO of Blockchain Australia. Deputy Chair of the Department of Industry, Science, Energy and Resources National Blockchain Roadmap Steering Committee. Steve is an Entrepreneur in Residence at Swinburne University and a mentor in several university accelerator programs including the Melbourne University MAP programme and the Deakin University Capstone programme He assists many budding entrepreneurs with their foray into the business world. A qualified lawyer, blockchain technology and digital strategist who has worked with a range of verticals including telecommunications, education and startups. Focusing on building value adding relationships with content producing professionals, social media strategists, SME's and enterprise businesses who are looking to benefit from the paradigm shift to customer centric online marketing opportunities and emerging technologies.

ABSTRACT

Blockchain has come a long way since the first implementation, bitcoin, launched in 2009. Steve will discuss how blockchains work at a conceptual level, and some of the work Blockchain Australia is doing to address issues arising around Blockchain use in the medical sector.
