GRIFFITH UNIVERSITY

2026

WOMENS PARTICIPATION RATES

CRICOS: 00233E | TEQSA: PRV12076

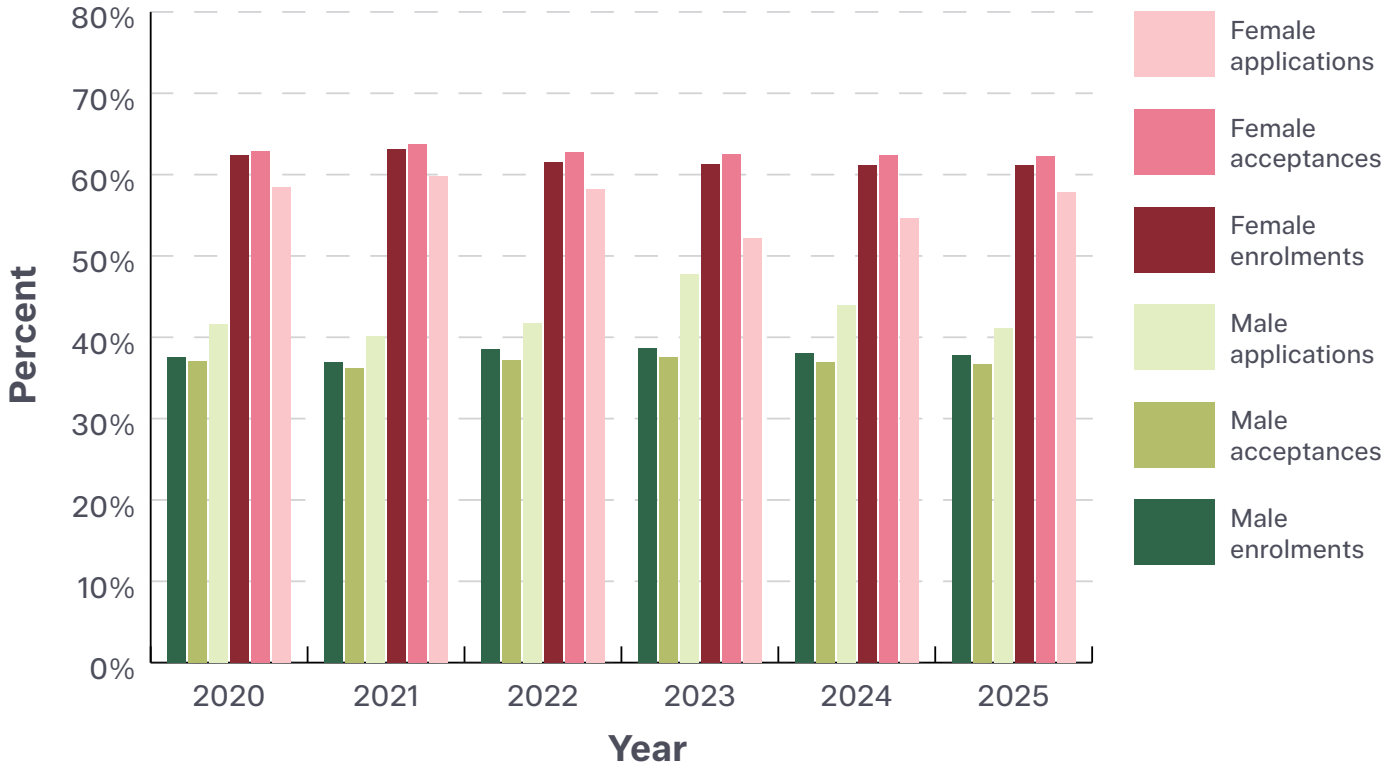

Make it matter

At Griffith, we systematically measure and track women's application rate, acceptance and entry rate, and their graduation rate as reflected in the data below.

Applications, acceptances and enrolments by gender

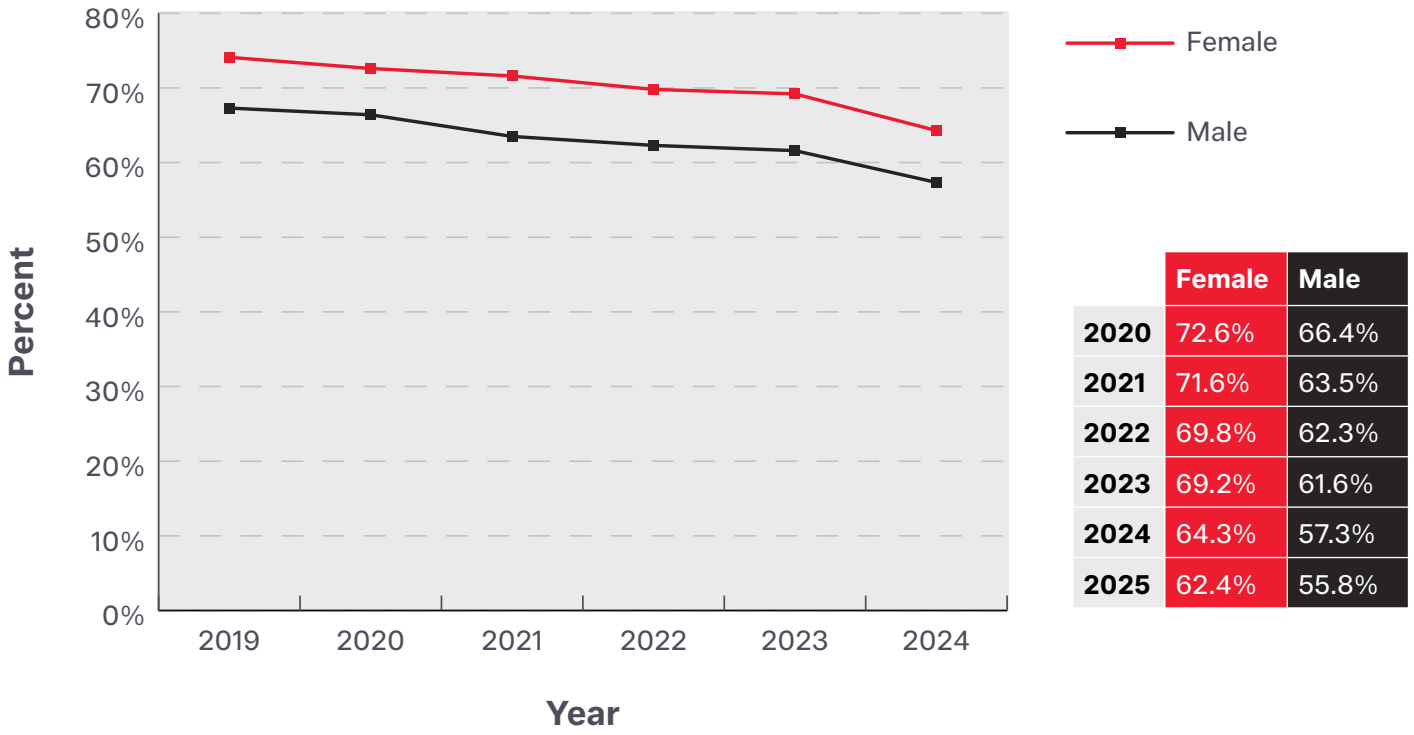

Women have been the majority of applications, acceptance and enrolments since 2020.

		2020	2021	2022	2023	2024	2025
Applications	**Female**	58.4%	59.8%	58.2%	52.2%	54.6%	57.9%
	Male	41.6%	40.2%	41.8%	47.8%	43.9%	41.1%
Acceptances	**Female**	62.9%	63.8%	62.8%	62.5%	62.4%	62.3%
	Male	37.1%	36.2%	37.2%	37.5%	36.9%	36.7%
Enrolments	**Female**	62.4%	63.1%	61.5%	61.3%	61.2%	61.2%
	Male	37.6%	36.9%	38.5%	38.7%	38.1%	37.8%

Qualification completions (graduation rates by gender)

For the past six years, females have been more likely to complete their degrees than males.

	Female	Male
2020	72.6%	66.4%
2021	71.6%	63.5%
2022	69.8%	62.3%
2023	69.2%	61.6%
2024	64.3%	57.3%
2025	62.4%	55.8%

Proportion of women receiving degrees

Griffith has put schemes in place to close the gap to women's participation and completion in STEM programs.
