

## Are you a **vegan** or a **meat-eater**?

This study is seeking strict vegans AND regular red meat/dairy eaters to look at normal levels of a potential **NEW CANCER BIOMARKER**

### You are eligible for this study if:

- ✓ You are over 18
- ✓ You are in good health
- ✓ You have never been diagnosed with cancer
- ✓ You are a **strict vegan** (at least 3 months) **OR**
- ✓ You regularly eat red meat and dairy

### What do you have to do?

- Answer a questionnaire about your health and diet
- Attend a 30-minute appointment to provide blood and urine samples at the Griffith University Clinical Trial Unit

**You will be compensated for your time and travel with a \$50 Mastercard gift card.**

Register for this study and find out if you are eligible by taking this screening questionnaire:
