Summary

I love to dig into research problems and solve them with modern technology. To accomplish this, I focus on key results and adapt to new insights. I educate, refine and drive myself to be a better person. I am constantly learning because I never settle. I remain calm when faced with adversity and I focus on making high quality decisions. I enjoy meeting new people and hearing new perspectives.

Research Expertise

- Monitoring Approaches for Faecal Indicator Bacteria in Water
- Remote Real-Time Sensors
- Fluorescence regions specific to common E. coli and enterococci species
- Fluorescence intensities specific to L-Tryptophan and Indole
- Civil engineering project management
- Environmental science
