# Science on the GO! Experiences

## Science Shows

- Duration: 60 minutes
- Year level: 4 to 8
- Numbers: 120 students maximum
- Venue: The classroom or school hall
- Cost: \$275.00 (Inc GST)

Show Content – The Science on the GO! core show investigates the states of matter. This dynamic show uses liquid nitrogen, dry ice, and an explosive mix of gases to demonstrate the fundamental chemistry of science. The core show also demonstrates how energy affects the states of matter via student involvement and participation. This highly engaging presentation links with the Australian curriculum: Science

## Science Workshops

Exciting and interactive workshops designed to encourage students to investigate and get hands-on with scientific principles linked to the Australian Curriculum: Science. Workshops include – polymers, electromagnetism, water, matter, kitchen chemistry.

- Duration: 60 minutes
- Year level: 4 to 8
- Numbers: 30 students maximum
- Venue: The classroom / speciality lab / outdoors (on or off campus)
- Cost: \$200.00 (Inc GST)

## The Laboratory Experiences

Secondary students (Year 9–12) attend Griffith University for the day to perform specialised STEM investigations within the University labs. Students participate in a number of pre-arranged experiments that support a current curriculum-based research task. Chemistry, Physics and Biology Labs are all available – see our website for more details.

- Duration: 2–5 hrs
- Year level: 9–12
- Numbers: 30 students maximum
- Venue: Griffith University Gold Coast campus
- Cost: \$Free (Inc GST)
