

Chinese Culture Day at St Laurence's College

The Tourism Confucius Institute (TCI) was invited to hold a Chinese Culture Day at St Laurence's College on August 13 2019. Different kinds of cultural activities were held in several classrooms where 180 students experienced unique Chinese culture.

Fangfang Li, a TCI teacher, explained the historical development and cultural connections of various kinds of Chinese knots. Later students followed her step-by-step directions for making lucky knots.

Yanan Huang, also a TCI teacher, introduced the art of Chinese paper-cutting. The students were amazed and glad to learn that cute animals could be created from small pieces of paper.

TCI teacher Wenyi Zhang introduced the culture of traditional Chinese chess and the basic rules of Five-in-a-Row. The students said that Five-in-a-Row was not difficult for them, but it was not as easy as they imagined to win the game.

The Chinese Culture Day concluded on a positive note. The students not only experienced rich Chinese culture first-hand, but also set their wits to work and actively participated in various activities. What's more, the lively demonstrations by the TCI teachers helped students develop a strong interest in Chinese culture.
