

## Griffith University Athena SWAN Action Plan, 2018-2022

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
<b>2</b>	<b>CAREER PIPELINE – HDR/PHD STUDENTS IN STEMM</b>						
<b>2.1</b>	<b>2 (v)</b> <b>[Page 21]</b>	Engage undergraduate women students in the Sciences Group in research programs to attract them to future research careers.	Women are below 50% of doctoral students in most of the Sciences Group elements. Griffith PhD students are a source of future academic staff and part of a career pipeline.	Candidates identified	2018-2022	PVC Sciences	Increase proportion of women in research programs by 2% each year
<b>2.2</b>	<b>2 (v)</b> <b>[Page 21]</b>	Continue to support summer scholarships and research programs to attract women undergraduate students to undertake PhD's.	Women are below 50% of doctoral students in most of the Sciences Group elements. Griffith PhD students are a			PVC Sciences	50% of Sciences and Health summer scholarships are awarded to women by 2022.

<sup>1</sup> Actions completed during the Griffith SAGE Pilot of Athena SWAN are also listed in the Action Plan, hence some timeframes may be before 2018.

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
			source of future academic staff and part of a career pipeline.				
2.3	2 (v) [Page 21]	Examine opportunities in the HDR scholarship assessment and ranking process (at the doctoral study level) to increase the proportion of women in specific STEMM areas.	Women are below 50% of doctoral students in most of the Sciences Group elements. Griffith PhD students are a source of future academic staff and part of a career pipeline.		Commencing September 2018		Increase by at least 2% pa the number of Griffith HDR scholarships awarded to women in the STEMM areas.
3	IMPLEMENTATION OF THE GRIFFITH ATHENA SWAN ACTION PLAN						
3.1	3 (iii) [Page 25]	Establish an Athena SWAN Committee as a formal sub-committee of the University's Equity Committee.	The Athena SWAN action plan is a comprehensive, institution wide initiative that will require ongoing	Committee, Terms of Reference and membership established.  Oversee ongoing communication	July 2018	DVC (A) DVC (E) Director, HR	Committee meetings scheduled bi-monthly.  Actions in the Plan achieved on time.

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
			commitment from across the University and particularly in the STEMM groups. There is a risk that it may lose momentum if not regularly monitored and evaluated by the University Executive and Council.	across the University about activities and outcomes.  Prepare for the 2022 submission.			Action Plan reviewed annually.  Athena SWAN website up to date, at least two formal communications per annum from the Committee to the University community reporting progress and initiatives.  Athena SWAN application submitted in 2022 with evidence of impact.
3.2	3 (iii) [Page 25]	Place “Progress on Griffith Athena SWAN implementation” as a regular report on agendas of key committees: <ul style="list-style-type: none"> <li>University Equity Committee</li> </ul>	The Athena SWAN action plan is a comprehensive, institution wide initiative that will require ongoing	Committee agenda templates amended to include “Progress on Athena SWAN implementation” as	July 2018	DVC (A) DVC (E) Group PVCs	Reports evident in each committee’s minutes.  All Sciences and Health Group actions

							commitment, policies and strategies in relation to equity, diversity and inclusion are clearly communicated to staff"
<b>4</b>	<b>FIXED TERM ENTITLEMENTS</b>						
<b>4.1</b>	<b>4.1 (iii)</b> <b>[Page 38]</b>	Broaden the eligibility for the Leneen Forde Future Leaders Program to include women on fixed-term appointments.	While women were approximately 29% (head count) of the total academic staff in the Sciences Group, they	Eligibility conditions changed to include women on fixed term appointments.	For 2020 cohort (the next intake into the program)	Director HR DVC (A)	At least 15% of participants are on fixed-term contracts
<b>4.2</b>	<b>4.1 (iii) (v)</b> <b>[Page 38]</b>	(As part of the new Enterprise Agreement, yet to be ratified) ensure all fixed-term staff regardless of their term of engagement will be automatically on full superannuation entitlements (proposed for implementation 2020).	comprised approximately 37% of the fixed-term staff and only 21% of the continuing staff. Being on a fixed-term appointment has typically meant reduced access to	Provision in EA accepted	March 2020	Director, HR	Data analyses show that full superannuation entitlements provided to fixed-term staff in 2020.

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
			programs and lower superannuation entitlements (contributor to gender pay differences) (see Figure 4.6 and section 4.1 (ii)).				
<b>4</b>	<b>REPRESENTATION IN RESEARCH ROLES</b>						
<b>4.3</b>	<b>4.1 (iii)</b> <b>5.1 (iv)</b> <b>[Page 38, 66]</b>	In the Sciences Group, ensure that at least 40% of staff who are transferred to research intensive workloads are women.	In 2017 women were 31.7% of the Research Only (RO) appointments in the Sciences Group. Increasing this proportion will also contribute to increased research outputs for women.	Target achieved each year.	2018-2022	PVC (Sciences)	40% of staff who are transferred to research intensive workloads are women.  The difference between women's and men's publication output and research income narrows by 5% pa.

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
<b>4</b>	<b>RETENTION</b>						
<b>4.4</b>	<b>4.1 (iv)</b> <b>[Page 39]</b>	<p>Introduce an online exit survey which allows for a greater capacity to understand reasons for leaving by gender.</p> <p>Once implemented, analyse reasons for resignation by STEMM and non-STEMM by gender.</p> <p>Where practical act on systemic issues identified in the exit survey that contribute to poor retention rates.</p>	While Griffith has data on exits for categories such as (“expiration”, “resignation”, “retirement” and voluntary separation” etc) and staff are offered an exit interview, it does not have a comprehensive system of collecting reasons for leaving and analysing at the University level.	<p>Commence survey in 2019.</p> <p>Data examined by academic/ general staff by gender by Group.</p>	2019	Director, HR	<p>Exit survey implemented by beginning of 2019.</p> <p>Reasons for leaving by gender and Group/Element are identified annually.</p> <p>30% of those leaving the University complete the exit survey each year</p> <p>Actions developed and reviewed based on the analyses annually.</p>
<b>4</b>	<b>GENDER PAY EQUITY</b>						
<b>4.5</b>	<b>4.1 (v)</b>	Conduct a more detailed gender	While Griffith can	Analysis 2018 and	2018-2022	DVC (A)	By June 2019,

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
	[Page 43 & 44]	pay equity analysis on non-base salary items by Group, <b>including Sciences and Health (STEMM)</b> <ul style="list-style-type: none"> <li>base salary</li> <li>market/merit loadings</li> <li>clinical loadings</li> <li>responsibility allowances</li> <li>allowance in lieu of a motor vehicle</li> <li>performance bonus</li> <li>superannuation</li> <li>leave loadings</li> <li>University full private use of a motor vehicle.</li> </ul>	analyse base and total remuneration data by gender, continuing and fixed-term status and Group (Sciences, Health and non-STEMM [AEL and GBS]), to date we have not had the capacity to analyse by each specific non-base salary component that contributes to total remuneration.  Having the ability to readily do this type of analysis will provide the University with the capacity to <ul style="list-style-type: none"> <li>understand</li> </ul>	ongoing.  By September 2019, new actions are developed and integrated into this plan to reduce these specific gender pay gaps.	2019-2021	Director, Planning Services  Director, HR	specific sources of gender pay inequity are identified.  Overall gender pay gap reduced each year by one per cent.  By 2021 gender pay gaps at these sources are reduced (metrics to be defined once data available) but sufficient to ensure 1% pa reduction in overall pay gap).

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
			<p>specific sources of gender pay inequities (beyond base salary); and</p> <ul style="list-style-type: none"> <li>• remedy processes associated with these specific aspects of pay.</li> </ul> <p>The STEMM Groups had larger pay gaps than non-STEMM (see Table 4.3 data and section 4.1(v)).</p>				

Action Number	Reference	Planned action/objective	Rationale	Key outputs and milestones	Timeframe <sup>1</sup>	Element/ Role responsible	Measure of success
	<b>4.1 (v)</b>	Addressing the overall academic pay gap.	Overall pay gaps may be attributed to underrepresentation of academic women at higher levels and in leadership positions and may be addressed by appointing and promoting women to senior positions so that there is equal representation through all levels at the University.	<i>See actions in section 5 on recruitment, promotion, career development, appraisal/development review, career progression, organisation and culture.</i>			
<b>4.6</b>	<b>4.1 (v)</b> <b>[Page 44]</b>	Continue to target high performing women for bonuses and ensure the biannual review includes a comprehensive review of female staff who may be eligible.	Significant discrepancies were identified in the proportion of women receiving loading and	An increase in the number of high performing women identified prior to the 2019 and 2021	2019 2021	VC	By 2021, women are 50% of those receiving market loadings.
