

Mathematics B Bridging Course

*Supercharge your capabilities through
our Maths B Bridging Course*

This 3 week intensive run course is strongly advised for students who have not completed a Mathematics B prerequisite (or equivalent) to ensure success in their studies. This course is available to students who wish to strengthen their mathematical skills before beginning their degree, as well as existing students looking to improve their skills. The course is hands-on and includes lectures, tutorials and quizzes to assist your learning.

Course content overview

The basic fundamentals of Mathematics B, including:

- Numbers (Types and Forms, Imaginary and Complex)
- Logarithms
- Trigonometry and Angles
- Algebra (laws, linear and quadratic functions)
- Equations (simple linear, quadratic, exponential growth & decay, trigonometric)
- Functions (absolute, composite, trigonometric, periodic)
- Rates of Change
- Integration and more.

Location:

Nathan or Gold Coast campuses

Date:

November 2020 – December 2020

Time:

Monday-Thursday 8.30 – 4pm
Friday 8.30 – 1pm

Cost:

\$450
