

Connecting OneDrive to Turbo.net

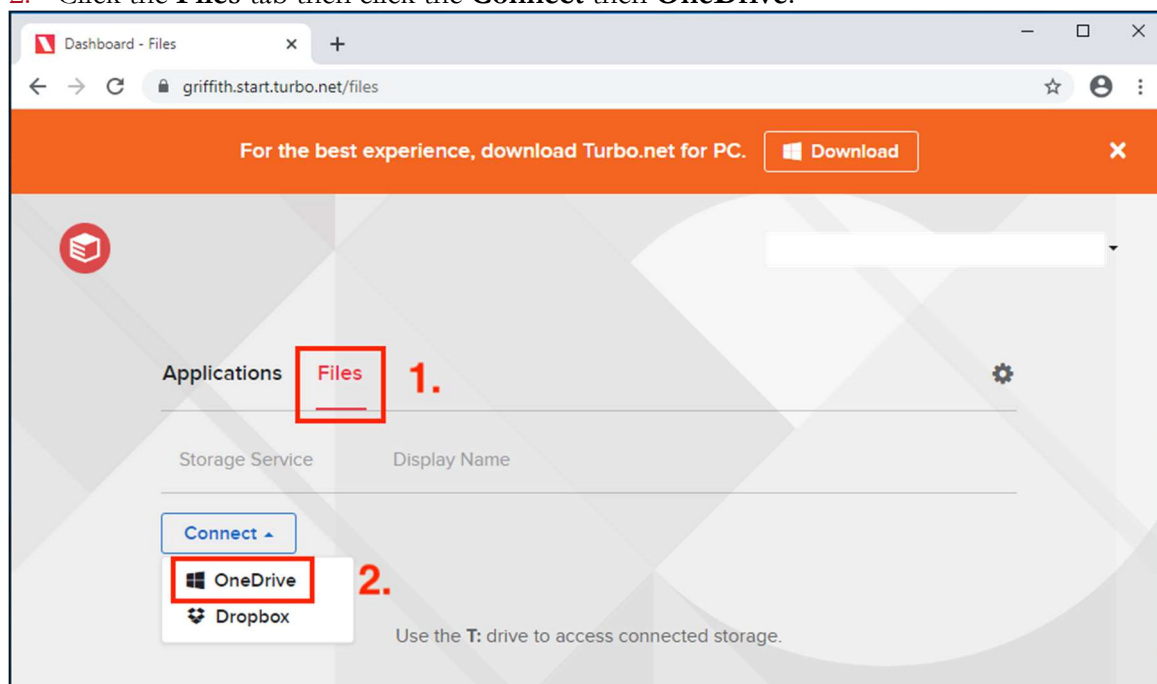

To save files in Turbo.net using the **Run in Cloud (HTML5)** or **Run in Cloud (Windowed)** modes, your staff or student OneDrive must first be connected to Turbo.net.

For instructions to launch an application in Turbo.net or to install the Turbo.net desktop app. go to; <https://www.griffith.edu.au/student-computing/using-your-own-device/turbo-net>

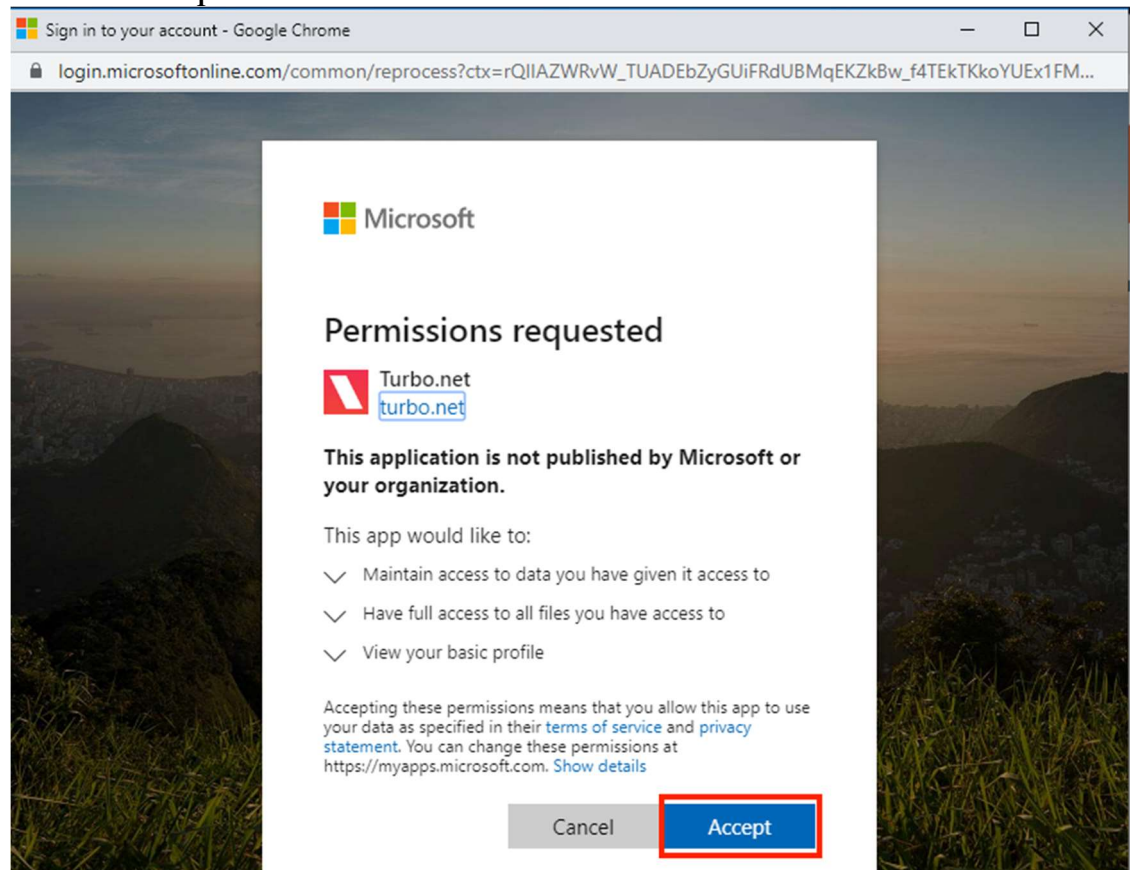

Connecting OneDrive to Turbo.net

In order to save your data to in Turbo.net, you first need to connect OneDrive as a storage service.

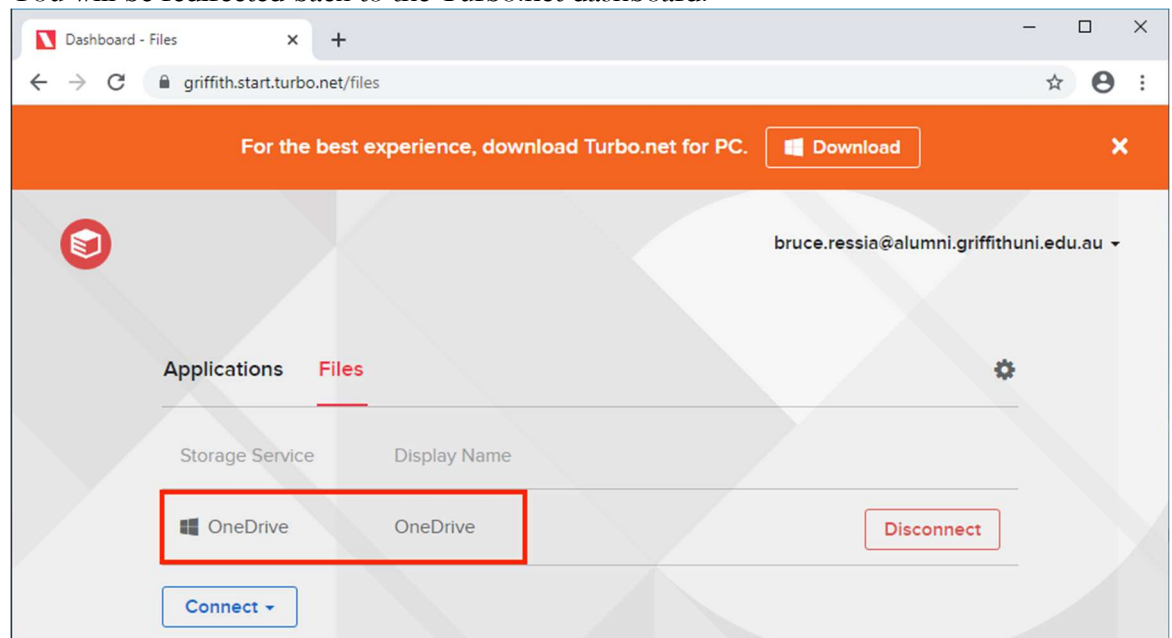

1. Go to <https://griffith.start.turbo.net> and login.
2. Click the **Files** tab then click the **Connect** then **OneDrive**.

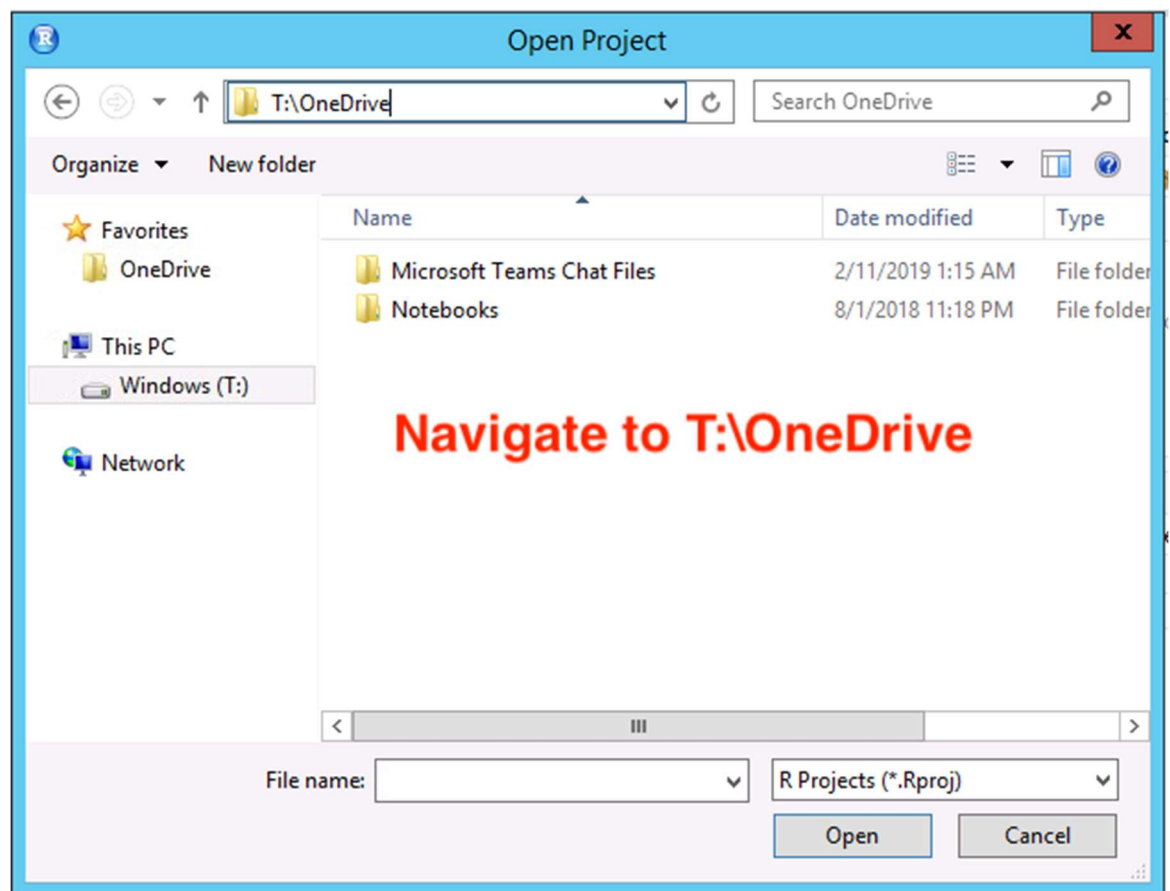

3. Click **Accept** button

You will be redirected back to the Turbo.net dashboard.

4. OneDrive will now be available for saving files when running applications in either the **Run in Cloud (HTML)** or **Run in Cloud (Windowed)** modes. Your OneDrive folder will be available as T:\OneDrive in all Turbo.net applications.

Please be aware that some application interfaces will differ to shown above.
