

Posters presentations

Posters will be displayed in room S02_7.07 of the Webb Centre during the 3 days of the Conference.

Poster N#	Name	Title
P1	Adams	Sahul's first isoscape for determining prehistoric human mobility
P2	Bayu Murti	Porotic hyperostosis on Individuals of Melolo sites, Sumba
P3	Behera	Emergence of behavioural modernity in the Late Middle Palaeolithic context in Bargarh Upland, Odisha, India: a case study of Torajunga site
P4	Bora	Traces of early humans in West Garo Hill Meghalaya, India
P5	Campbell	Removing the divide: identifying stereotypes and diversity of perspectives in the socio-political debate about Aboriginal genomics research
P6	Cosalan	Morphological affinities of the Tabon Cave frontal bone: preliminary investigation of the Two-Layer and 'Negrito' hypotheses within the Philippine context
P7	Dang	Sharpening edge for chopping, cutting tools in human evolution – the case of Vietnam
P8	Duval	Direct ESR dating of the Pleistocene vertebrate assemblage from Khok Sung locality, Northeastern Thailand
P9	Green	Revisiting the microstructure of the <i>Homo erectus</i> Trinil V femur
P10	Hidayah	New discoveries of <i>Stegodon</i> fossils in Atambua and Atambua's potential as human ecosystems during Pleistocene
P11	Kampuansai	Transboundary distribution of glucose-6-phosphate dehydrogenase (G6PD) deficiency from China to Thailand
P12	Kono	Overview of the Shiraho-Saonetabaru Cave site, and facial approximation result of the best-preserved individual from the site
P13	Marshall	A bamboo raft voyage from Timor to Australia in February 2020
P14	McGahan	Behavioural adaptations in savannah chimpanzees and their relevance in human evolution
P15	Pearson	Palaeoneurology of Asian <i>Homo erectus</i> : preliminary reconsiderations for temporal lobe morphology
P16	Pilbrow	Climate change drives phyletic evolution in <i>Sivapithecus</i>
P17	Putri	Cultural aspects in Batangmatasapo site, Selayar (a palaeopathological study of human remains)
P18	Ramabraham	Pioneers of rock carving: evidence from South India
P19	Rui	Chronology of Palaeolithic-Neolithic transition in the Yujiago Site at the Nihewan Basin, northern China
P20	Salamon	A multiomic approach to archaeological and palaeontological remains
P21	Schaarschmidt	Determining the time of occupation of Nguom Rock shelter, northern Vietnam, using optically stimulated luminescence
P22	Shitara	Rotator actions of hip extensors in Japanese macaques during arboreal quadrupedal walking: implications to functional differentiation between gluteus medius and hamstrings
P23	Sontag-Gonzalez	Novel luminescence methods to date volcanic feldspars from archaeological sites in Indonesia
P24	Sumintadiredja	Geosciences contribution in Kidang Cave archaeological site, Blora, Central Java
P25	Tanihata	Preservation of excavated human bone due to intentional funeral practice
P26	Uldin	Human remains and burial practices on Ilin Island, Mindoro Occidental, Philippines
P27	Wang	A brief introduction to the Palaeolithic site Xihoudu in northern China
P28	Wasef	Ancient genomes of highland Thailand log coffin people
P29	Wood	Towards a pretreatment for radiocarbon dating tooth enamel
P30	Zetika	Prehistoric human remains in Kisar Island, eastern Indonesia
