

Introduction

The **RiskWare App** enables all users to report incidents or hazards quickly and easily on **GSafe Plus** via a mobile device.

Download Riskware from the App Store or Google Play

On your phone or tablet, go to the [App Store](#) or [Google Play](#), search for **RiskWare** and install on your device.

RiskWare 4+

Open RiskWare

1. Open **RiskWare** for the first time.
2. Tap the riskcloud.NET 🍌 icon to open the **Connection Settings**.

Configure Connection Settings

1. Ensure the **Production** option is ticked
2. Enter the **Access Code**: Griffith
3. **Save** the settings

The screenshot shows the 'rapi Settings' screen with a 'Cancel' button on the left and a 'Save' button on the right. Under the 'Connection Settings' section, there are four rows: 'Connect to the Cloud' with a green toggle switch, 'Production' with a blue checkmark, 'User Acceptance', and 'Testing'. Below this is the 'Client Access Code' section with a text field containing 'griffith'. At the bottom is the 'riskware' logo with the tagline 'Enterprise Risk Intelligence Software'. The bottom of the screen shows standard Android navigation icons.

Login to RiskWare

1. Tap the **Sign In** button to display the **Log In** screen and enter your **Username** and **Password**

Cancel Sign In

For further details, refer to the [Queensland Health advisory](#) or the University's [coronavirus](#) page.
