

The MFA project is currently reviewing wireless devices located in restricted/regulated rooms/labs. To assist us in exempting these devices from MFA we require the MAC address. This guide provides details on retrieving the MAC address on an Apple Mac.

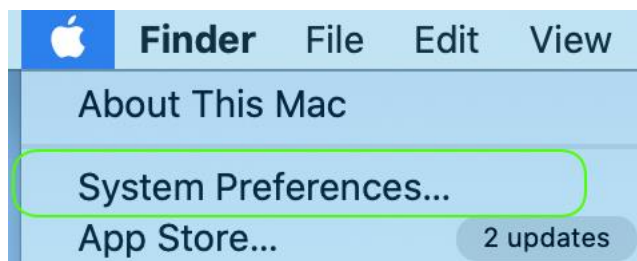

Step 1: Click the Apple icon

- 1 Click the **Apple** icon in the top left corner.

Step 2: Open System Preferences

- 1 Click **System Preferences**.

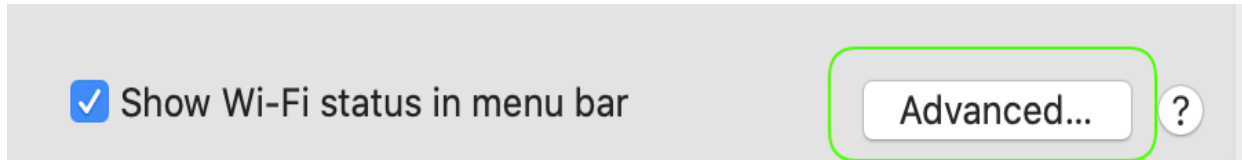

Step 3: Open network properties

- 1 Click **Network**.

Step 4: Find the MAC address

- 1 Click **Advanced** in the bottom right corner.

- 2 Find the MAC address of the device.
