

Tourism and Development on Gold Coast Beaches: A SWOT analysis (Excursion).

Economics and Business	Geography	Science	Maths
Biology	Biology AND Earth and Environmental Science		Earth and Environmental Science

Year 7	Year 8	Year 9	Year 10	Senior
ACHES024 Generate a range of alternatives in response to an observed economic or business issue or event, and evaluate the potential costs and benefits of each alternative.	ACHES036 Apply economics and business knowledge, skills and concepts in familiar and new situations.	ACHES043 Develop questions and hypotheses about an economic or business issue or event, and plan and conduct an investigation.	ACHES058 Generate a range of viable options in response to an economic or business issue or event, use cost-benefit analysis and appropriate criteria to recommend and justify a course of action and predict the potential consequences of the proposed action.	ACHGE001 Formulates geographical inquiry questions.
ACHES026 Present evidence-based conclusions using economics and business language and concepts in a range of appropriate formats, and reflect on the consequences of alternative actions.	ACHGK050 The geomorphic processes that produce landforms, including a case study of at least one landform.	ACHGK069 The effects of people's travel, recreational, cultural or leisure choices on places, and the implications for the future of these places.	ACHES059 Apply economics and business knowledge, skills and concepts in familiar, new and hypothetical situations.	ACHGE002 Plan a geographical inquiry with clearly defined aims and appropriate methodology.
ACHGK041 The economic, cultural, spiritual and aesthetic value of water for people, including Aboriginal and Torres Strait Islander Peoples and peoples of the Asia region.	ACHGK051 The human causes and effects of landscape degradation.	ACHGS069 Identify how geographical information systems (GIS) might be used to analyse geographical data and make predictions.	ACHGK070 The human-induced environmental changes that challenge sustainability.	ACHGE004 Record observations in a range of graphic representations using spatial technologies and information and communication technologies.
ACHGK042 The causes, impacts and responses to an atmospheric or hydrological hazard.	ACHGK052 The ways of protecting significant landscapes.		ACHGK073 The application of human-environment systems thinking to understanding the causes and likely consequences of the environmental change being investigated.	ACHGE003 Collect geographical information incorporating ethical protocols from a range of primary and secondary sources.

ACHGS054 Reflect on their learning to propose individual and collective action in response to a contemporary geographical challenge, taking account of environmental, economic and social considerations, and predict the expected outcomes of their proposal.	ACHGK053 The causes, impacts and responses to a geomorphological hazard.		ACHGK075 The application of environmental economic and social criteria in evaluating management responses to the change.	ACHGE005 Evaluate the reliability, validity and usefulness of geographical sources and information.
	ACHGS062 Reflect on their learning to propose individual and collective action in response to a contemporary geographical challenge, taking account of environmental, economic and social considerations, and predict the expected outcomes of their proposal.		ACHGS078 Identify how geographical information systems (GIS) might be used to analyse geographical data and make predictions.	ACHGE006 Analyse geographical information and data from a range of primary and secondary sources and a variety of perspectives to draw reasoned conclusions and make generalisations.
				ACHGE010 Applies generalisations to evaluate alternative responses to geographical issues at a variety of scales.
				ACHGE011 Proposes individual and collective action, taking into account environmental, social and economic factors; and predicts the outcomes of the proposed action.
